sales@organature.com.au

We Deliberately Manufacture "Above" Organic Certification Standards

Organature® works to European Organic Standards, as Australian and U.S. certifications are not good enough for Peter, our founder, who for many years suffered severely from M.C.S. (Multiple Chemical Sensitivity). He only produces and supplies products that are safe for his own use, and those he has fully researched. We go to enormous lengths to provide you with a genuinely cleaner, healthier, chemical free product. It all comes from a very personal level.

Creating a Healthier Home

Organature® is the only firm in Australia making organic bedlinen and bedding in Australian sewing rooms, with Australian labour, giving total control over the manufacturing process from start to finish. We guarantee the purity of our products.

Want To Improve Your General Wellbeing?

If you are just starting out buying organic products to improve your health and general well-being, we recommend you begin with THE BEDROOM where you spend most of your time sleeping, and with the items that are closest to your skin. Certified organic filled pillows, organic cotton sheets, quilts, blankets, clothing, towels and bathrobes are a good start. If you are saving up to buy an ORGANIC MATTRESS or FUTON, a comfortable Mattress Topper (similar to the Futon but approx. 5 cm thick) might be a useful alternative in the interim.

For a Better Nights Sleep

To further reduce the possibility of chemical sensitivity, allergies or asthma, also consider purchasing one of our beautiful Hardwood Timber BEDS, BUNKS, TRUNDLES which are thoughtfully made in rural South Gippsland, Victoria using specially sourced Victorian Ash Hardwood from managed plantations. With No Harmful chemicals, No MDF, No Chipboard, No Chemical Paint and No Toxic Glues. To assist your immune system even further, try washing your clothing in a phosphate free washing powder and painting your rooms with non-toxic paint.

Your Health Impacts Your Quality Of Life.
We Aim To Give You The Best Quality Possible.

Why Our Furniture Is a Healthier Option

All our Hardwood Timber Furniture, beds, bedside tables, chests, couches, trundles and bunks are Made In Australia specially for us with locally sourced “Victorian Mountain Ash” from managed plantations. No Toxic chemicals, No MDF, No Chipboard, No Chemical Paint and No Toxic Glues are used during any part of the manufacturing process.

Variety of Safe Timber Finishes

All Organature furniture comes in several different timber finishes; raw and sanded OR with a natural plant and mineral based oil in your choice of colours. These are a safe and eco-friendly alternative to the conventional polyurethane, synthetic & chemical paints mostly used by other furniture manufacturers.

Experienced Cabinet Makers with High Standards

Our talented cabinet makers, Russell and Peter, have many years industry experience and have now been consigned to produce our magnificent hand crafted, toxic free timber furniture too. They refuse to use inferior products. Only the best timber and the purest processes will do; luckily for us.

Attention to Detail Produces Healthier Results

We go to great lengths to reduce the impact that chemicals have in our lives. Even the glue we use is a special one imported from the US, as Australian produced adhesives are too toxic. This special glue dries rock hard within 10 minutes. Only a very small amount is needed between the timber joints because nails and decorative bolts are utilised as much as possible, keeping it contained so it doesn't spill to the outside. This combination avoids chemical outgassing and toxic buildup, which is prevalent in most furniture and building materials in use today.

Doing Business Locally Reduces Environmental Impact

We work with a highly reputable local sawmill to reduce our carbon footprint. Brown Sawmills are members of Australian Forest Standard, SAI Global certified system and PEFC, assuring Australian forests are properly cared for, maintained and managed in the most sustainable ways. The main advantage for choosing locally sourced hardwood over imported timbers is that local hardwood is NOT "fumigated", while imported timber must pass quarantine inspections before it's allowed to enter the country. These imported wooden products are often fumigated prior to arriving to reduce biosecurity risks from exotic pests which can be carried in the egg or larvae stage, their presence might not even be obvious until frass (a sawdust-like substance) and holes appear some time later.

Feel Good About What You Buy

For those who are conscious of caring for our environment, desire to improve their health and wellbeing or who simply wish to lessen their day to day exposure to chemicals, our handcrafted timber furniture and hardwood beds provide you with a safer, cleaner, healthier option that we are sure, you will "feel good" about having in your home, for many years to come.

[Advice? It's Free! Contact Us.](#)

Please feel free to [contact us](#) if you need any information before you purchase. As our products cannot be compared to conventional, we understand you may require more personal information. We're always happy to talk over the phone or by email and clear up any concerns or queries you may have.

About The Founders

Organature was founded by Peter and Maureen Byl in 2004. They had previously worked for many years in a family business, manufacturing, wholesaling and retailing bed linen, bedding and curtains.

In 1993 Peter was diagnosed with Multiple Chemical Sensitivity. Testing showed the predominant cause of his illness to be the out-gassing of chemicals from the fabric used in the workplace and the overall work environment.

There is no total cure for this strange ailment which can strike anyone at any time; many people are already allergic to perfumes, detergents, soap powders and deodorants, due to the chemicals they contain!

To-date the only recognised remedy and precaution is 'Avoidance of Chemicals'. This is not only to the chemicals to which you are known to be affected, but also to other chemicals as these can cause the 'domino' effect. Multiple Chemical Sensitivity can happen to anyone. Because you need your rest without the effects of chemicals, it is most important to avoid formaldehyde treated bedlinen and the other chemicals, such as Phenol, which they contain. Conventional cotton sheets often contain formaldehyde to make them 'Non-iron', 'Easy care', 'Wrinkle free', ' Permanently pressed', 'Flame proof' and many other fancy names.

Due to Peter's ill health, the family business closed. As a consequence Peter and Maureen have made massive changes to their lifestyle and to their home environment – all for the better. Improvements in Peter's health, due to these changes, combined with past knowledge and experience, enabled him to produce this exclusive range of organic cotton bedroom, bathroom and nursery products, and to help, not only those who have chemical sensitivities and allergies, but many others seeking a healthier lifestyle. Thus Organature was born.

➡ **READ MORE:** [Peter's Story – An article in Garden Organic.](#)

Maureen, Peter and their family, are proud to offer you a higher quality, safer and healthier textile product.

About The Products

The 'Certified Organic' textiles industry in Australia really began in earnest when Organature commenced the manufacture and supply of organic and chemical free mattresses, bedding and bedlinen for babies, children and adults alike. All of the organic fabrics, fillings, bedding, bed linen, towelling, manchester and clothing in the Organature range, are made from exclusive *GOTS Certified Organic Cotton*, grown by non-toxic methods and using only that water which falls directly from the sky – pure fresh rainwater! This makes them even more highly sought after by those who care for the future health of our children, the environment and our

planet.

To minimise Peter's exposure to the harmful chemicals that were making him sick, we searched for 'CERTIFIED' organic cotton products for the bedroom and a company in the Netherlands, able to supply rolls of certified organic cotton fabrics, was located. Importing the fabrics to make the products in Australia was the most economical and viable option. Raw cotton, including the cotton filling in imported toys, quilts, mattress protectors and pillows is mandated to be fumigated when it arrives in Australia; that is another harmful chemical.

Our fabrics and fillings are NOT fumigated and we do NOT use fire retardants. Organature bedlinen products are packed in cellophane (a product made from tree cellulose), NOT plastic or plastic that looks like cellophane. Quilts pillows and mattresses are packed in bags made from our organic cotton fabric, ideal to be used for storage. Organic cotton and cellophane are natural materials, they are bio-degradable, and when used or worn out, can go into your compost.

Due to our experience and the way we control all aspects of the fabrics we have woven for us, the products we manufacture ourselves and those we have made especially for us, we can now offer YOU the BEST in Organic quality, clean production and price ... without contamination from outside sources.

➡ **READ MORE:** [What Does "Certification" Really Mean?](#)

We hope our products will improve the quality of your life too.

About The Fabrics

We have decided it's best to import our own organic fabrics which unfortunately cannot be made in Australia as there is no equipment to produce these fine yarns or weave the better quality fabrics that we use for our linen and other bedding. To keep the carbon footprints at its lowest, we import from our closest associate, India.

Our mattresses, quilts and pillows are the only ones made in Australia which are filled with Certified Organic Cotton; these products are made in Australia under contract to our clean and organic specifications from the materials we supply. Our 100% Organic cotton towels are also made for

us in India. We do make some of our own towels with imported terry toweling from Turkey.

All bedlinen and other bedding products are made in Australia in our own sewing rooms under strict clean conditions; the walls are painted with natural organic paint, the cutting table is Australian hardwood, we do not use chipboard or MDF, we are a family business and none of us use chemical fragrances, personal care products or perfumes.

We follow the European certification standard, not the American, as they do allow certain chemicals to be used in fabrics, such as Optical Brighteners (O.B.), to produce the optic white colour. These Optical Brighteners are not allowed under European Certifications. Some Organic cotton bedlinen is imported and sold in Australia which contains these chemicals. This is possible because there is no textile certification in Australia.

We're thoughtful about how we treat, store and manufacture all our products. We care about your health and the health of our planet.

About The Staff

Business grew steadily in the first few years. We advertised in several organically inspired magazines and very much appreciated the positive feedback they generated.

With the assistance of friends and family we set up stalls at trade shows and were blown away by the positive response yet again.

Orders increased, requests for new products multiplied and our Organature range grew from basic sheets and doona covers into organic cotton filled quilts, bath robes and clothing.

At this stage, we needed more permanent help to expand the business further while at the same time fulfill our desire to deliver personal service and give experienced advice when asked, yet maintain our high standards to supply a quality product. In a well-timed move, several family members were inspired to join the business and thankfully, we have never looked back. This of course brought with it more capabilities to add yet another highly sought-after product to our range – Australian Hardwood Furniture.

After a few years, we had a need to expand further, and with a few team members leaving to move interstate, we also found the need to employ new staff and to find a new location which could hold our expansion.

The opportunity arose to move to Melbourne where not only could we house the large cutting table for our wide width fabric for cutting sheets, but also we could have a shop front. Such an exciting step for us. We employed some local staff members, and quickly become a new knowledgeable team, who each brings their own story.

➡ **READ MORE:** [The Cleanest Production & Transporting Standards in Australia – safe for chemical sensitivity sufferers.](#)

We now make an additional range of furniture, beds, baby cots, change tables etc. that can be shipped straight to your door, anywhere in Australia.

About The New Shop

Growth always brings new challenges, and we certainly did our share of soul searching. Should we sell (that would be a bit like selling your baby), should we close (unthinkable), or should we re-fresh, re-furbish, re-generate, re-locate?

So that is what we did. In March 2015, with support and encouragement from our daughter Genevieve, who is by now managing most areas of the business, we located to new premises in San Remo (near Philip Island), sought out new team members – a wonderful group of philosophy sharing souls who are also eager to improve their own health and life-style while

considering and caring for others. In March 2019 we made another move to a shop with better storage facilities, just down the road in Newhaven. In fact, our fabrics are now stored in a beautiful, clean and spacious area just out the back. So the venture continues, enjoying, expanding, and always searching for more knowledge and better ways to live organically, improve our existing products and increase our level of service.

[The Organic Baby Nursery](#)

HEALTHY ORGANIC BABY NURSERY: All Organature® Bed Linen and Hardwood Furniture is chemical-free, toxin-free, additive-free. NO Harmful chemicals, NO MDF, NO Chipboard, NO Chemical Paint and NO Toxic Glues are used during any part of the manufacturing process. Proudly MADE IN AUSTRALIA where we can guarantee the purity of the manufacturing process from start to finish ... so we can confidently call it 100% Organic. Direct from the Farm to your Home.

GIVE YOUR BABY THE BEST START TO LIFE: Our aim is to help raise happy, healthy babies and toddlers by relieving them of some of the thousands of chemicals in every day use. We recommend you avoid placing babies tiny body on or near any conventional baby bedding that has fire retardants, water-proofing, harmful glues or dyes. Some are sold as 'Non-iron', 'Easy care', 'Wrinkle free', 'Permanent press', 'Ultra Fresh', 'Water-proof' and 'Flame proof'. They might sound good, but these are all chemical additives.

WHERE TO BEGIN: If you sleep them on products made from 100% GOTS (Global Organic Textile Standard) Certified Organic Cotton, you can be at peace knowing for sure, they are NOT breathing in any toxic fumes. Start by providing them with a sound and healthy sleep on an [Organic Cotton Mattress](#) topped with an [Organic Mattress Overlay](#) and an [Organic Mattress Protector](#) to provide the best Water-Resistance possible using purely Certified Organic fabrics, and naturally covered with fresh Organic Cotton Sheets, Quilt and Quilt Cover or a soft [Organic Fleece Blanket](#).

ORGANIC BABY CLOTHES: We also have a lovely range of [Organic Baby Clothes and Toys made from 100% Certified Organic Fabrics and Fillings](#).

Babies Cradle Package - AUSTRALIAN MADE 100% Organic

Organature® Chemical Free, Non Toxic Cradle - The best for your new baby's tiny body. RECOMMENDED BY: [Organic Baby Nursery Australia](#).

From the Creators of the Australian Organic Baby Nursery™

THE COMPLETE BABY CRADLE *PACKAGE INCLUDES:

- Australian Hardwood Cradle And Hammock,
- Organic Cotton Mattress,
- Organic Muslin Curtain.

Easy to assemble, our Cradle has the Australian Hardwood frame with a slat base - also Australian Hardwood, that sits in the flat hammock of the cradle. The Hammock is made from 100% Certified Organic Cotton, and the curtain is made from 100% Certified Organic Cotton Muslin. Our futon style bassinet mattress sits into our new style hammock on top of the slat base. The mattress is made from 100% Certified Organic Cotton filling and outer - nothing else!

*Note: The mattress does not have divets, and although it starts off feeling puffy, will flatten down to a compact surface. It will not be rigid. This would involve foam, rubber or latex, which is full of nerve toxins and chemicals, and we DO NOT and WILL NOT use.

Our Organature® Cradle is made using timber that requires NO chemical fumigation.

Available Raw and Sanded, or with a Natural Plant Based Oil in Clear. (This is an oil not a paint, so you will still see the natural wood grain and individuality.). *Note: the slat base insert which sits inside the hammock is not oiled.

IMPORTANT INFORMATION ABOUT OTHER BABY COTS AND CRADLES SOLD IN AUSTRALIA:

Did you know that most conventional wooden furniture is made using toxic glues and finishes? Imported timber must be fumigated before it can enter the country.

Most cots and cradles sold in Australia are imported, the majority are made in China. One cot we researched is made in Australia from imported timber, these timbers ARE fumigated. Some suppliers of cots are claiming made with 'Australian timber', this may be true but they send the timber to China to produce the furniture more economically! What happens when it's returned back to Australia? Australian quarantine regulations requires fumigation of timber and timber products. Fumigation chemicals are harmful to health, and a possible cause of SIDS. Some cots and cradles are also made here with MDF, full of formaldehyde, another cause of SIDS? Glued and finished with petro chemical paint and stain, another cause of SIDS? — It's not worth the chance.

ORGANIC BABY NURSERY AUSTRALIA: Because of this, we found it necessary to manufacture our own AUSTRALIAN HARDWOOD TIMBER FURNITURE from local Victorian Mountain Ash. NO Toxic chemicals, NO MDF, NO Chipboard, NO Chemical Paint and NO Toxic Glues are used during any part of the manufacturing process. Brown Sawmills are members of Australian Forest Standard, SAI Global certified system and PEFC, assuring sustainability and keeping down carbon footprints. There is no fumigation used in the processing of any of our timber products. There are no harmful chemicals to out-gas in either the construction of our furniture or in the finish either.

All Organature® Bed Linen and Hardwood Furniture is toxin-free and Proudly MADE IN AUSTRALIA where we can guarantee the purity of the manufacturing process from start to finish ... so we can confidently call it 100% Organic.

APPROXIMATE DIMENSIONS:

- Cradle height to top bar: 88 cm approx.
- Floor Space 53 x 100 cm approx.
- Optional Curtain head 168 cm above floor.

REVIEW: Kelly Douglas |  |23/12/2018 | Love your products!! I have a baby sleeping soundly in the next room on a cradle mattress by Organature ❤️. Her cradle is next to the Victorian Ash king size bed you guys made us and the next room along hosts a cot by Organature

Hardwood Country Cot - AUSTRALIAN MADE 100% Organic

Our country cot is truly 'UNIQUE' because it is the only one MADE IN AUSTRALIA with 100% Australian hardwood timber, available in the natural timber finish or with Natural plant and mineral based oil, thus truly Organic. Manufactured to comply with Australian Cot Standard AS/NZS/2172. RECOMMENDED BY: [Organic Baby Nursery Australia](#).

This Country Cot has 2 height positions for all different stages of growth, as per [productsafety.gov.au](#). The top position provides a depth to use as a bassinet, next down is the normal height when baby is ready to leave the bassinet and is the regulation when baby stands. Then a toddler bed can be created by removing one of the side panels.

Our cot complies with the requirements of the COMMONWEALTH OF AUSTRALIA

Consumer Protection Notice No. 6 of 2005 – Please click the following link to view our Certification [Organature Cot Commonwealth of Australia Consumer Protection Notice No 6 of 2005 Consumer Product Safety Standard Childrens Household Cots Certification](#)

HARDWOOD COUNTRY COT SPECIFICATIONS:

- Height adjustment of the base is achieved by re-positioning brass coloured bolts.
- Outside dimensions (corner posts included): Approx Length - 140 cm | Approx Width - 77 cm
- Available in a range of height variations (from floor to top of the cot rail) - 105 cm (our standard height), 100 cm, 95 cm, 91 cm.
- Available raw and standard or finished with natural plant based oil. (Please note that we no longer do the Gloss White as pictured, however this is available from Livos to be able to apply yourself, to a raw finish cot.
- Minimal glue used. Dries rock-hard so no out-gassing.

ASSEMBLY: For assembly instructions please download: [Cot assembly instructions](#)

OILING YOUR HARDWOOD FURNITURE: We source our oils from Livos who have a range of other colours, you may choose to purchase raw and sanded and apply the oils yourself, here is a link to the Livos website: [Livos](#)

AUSTRALIA-WIDE DELIVERY: All Organature furniture, beds, mattresses, futons, bed bases and toppers are professionally delivered right throughout Australia by a specialist courier service. These items are carefully packaged and sent from our hygienic factory in Victoria and freight is charged according to your postcode. This cost is not included in your online order, and we will contact you to confirm the delivery charge. You are welcome to [get a quote for shipping](#) before placing your order. If you select 'Pick up from store' - this will still incur a \$50 fee for transport from our craftsman/factory to our shop in Newhaven.

RECOMMENDED ORGANIC COTTON MATTRESSES AND FUTONS: This cot is perfectly suited with these:

- [Cot Innerspring Organic Cotton Mattress \(130x69 cm\). Approx. 12cm side walls.](#)
- [Cot Futon Organic Cotton Mattress \(130 x 69 cm\). Approx. 10cm deep.](#)

REVIEW: Jessica Hirst |  | 29/02/2016 | I just wanted to write you a very belated thank you for my babies cot! My mum saved up for ages to buy it for him as she believes strongly about your principals of being chemical free. My son loves his cot, he sleeps through the night every night and I've had no problems with it at all. It was easy to assemble and the sheets wash like a dream. The sheets are so soft and smell beautiful, I want to get into the cot and snuggle in with him!

REVIEW: Kelly |  | 9/10/2015 | My baby girl was born in April 2014 and prior to that had sourced a bargain cot furniture set (cot, change table, and drawers)... Then when she came and I thought about how strong that junky cheap set smelt (kind of like a chemical factor if you left the door shut), I ditched it quick smart after researching everywhere I could for a truly safe product. I definitely found the wow factor and safety in this cot. The smell of the hardwood when it arrived was AMAZING and I knew the wood was coated in one of the few products guaranteed to be safe in Australia (would you believe it, no manufacturers care about that aspect except the few gems like Organature). Finally it looks absolutely beautiful. Simple, classy, and safe. Thank you so much Organature for doing what you do, and to anyone considering this cot, it is absolutely worth the investment.

REVIEW: Kelly |  |9/10/2015 | I am so happy with everything in this package. It is a great starter package, especially because it sets you up to look after your organic mattress properly... Onto the mattress. Words cannot express the peace of mind this mattress will give you. It is worth every \$\$\$ that you spend. Did you notice how much babies love to sleep on their tummies with their face on the side and nose/mouth just above the mattress. Think about what they are breathing in. You have this mattress which is pure organic cotton bliss, then you have the average mattress with horrible synthetic materials and the chemicals they are treated with. Couple that with a tiny little babies respiratory system and body. Do your research, minimise the risks wherever you can. I did my research and the safety and quality that Organature provides is exactly what I was looking for.

Cot Innerspring Organic Baby Mattress AUSTRALIA

Organature® Organic Baby Mattress Australia

100% Safety Record

We know - We Checked

This Cot Innerspring Mattress is available in various cot sizes and made using the purest 100% GOTS Certified Organic Cotton Fabric and Filling.

RECOMMENDED BY: [Organic Baby Nursery Australia](#).

Our mattresses and futons are NOT waterproofed. Water-proofing is achieved with a plasticizing or chemical treatment and as we believe that chemicals contribute to a wide range of health issues, including asthma, eczema, attention deficit and especially [Sudden Infant Death Syndrome](#) (SIDS), we will not use it. However, along with our [organic mattress protectors](#) and [organic mattress overlays](#) or [organic mattress protector pads](#), you are guaranteed to have the BEST ORGANIC WATER RESISTANT product that's currently available in Australia today ... and the safest!

INNERSPRING MATTRESS APPROXIMATE COT SIZES:

- [Cot 65 \(1280 x 650 mm\)](#) MADE TO ORDER ONLY
- Cot 69 (1300 x 690 mm)
- Cot 75 (1300 x 750 mm)
- Cot 77 (1320 x 770 mm)
- [Cot 70 \(1400 x 700 mm\)](#) MADE TO ORDER ONLY
- [OR to your size specifications](#) MADE TO ORDER ONLY

Approx. 12 cm side walls.

IMPORTANT INFORMATION ABOUT BABY BEDDING SOLD IN AUSTRALIA:

Did you know that frequently present in conventional baby cot mattresses and bedding are *High Volatile Organic compounds (VOCs) like phosphorus, arsenic and antimony, and nerve toxins like formaldehyde, benzene and toluene? Whether they be in the petroleum based, Polyethylene foam, the petroleum and chlorine based Vinyl or PVC used for waterproofing (a known carcinogen, let alone, one of the most environmentally unfriendly plastics used today), or the petroleum based Fire Retardants ... separately or together ... they make up a toxic soup that is linked to immune suppression, hormone disruption, developmental delays, learning and memory problems, behavior changes, and cancer.

When your baby can sleep for up to 18 hours a day, do you really want them inhaling these chemicals? These chemicals off gas and also heat up during sleep, therefore intensifying the toxic effects.

WHAT NOT TO DO:

- For the best start possible, avoid using conventional bedding no matter how 'natural' they claim it to be, unless it is certified organic to conform with Global Organic Textile Standards (GOTS).
- Don't sleep them on conventional cots, cradles, trundles or beds that are imported from other countries or made from imported timber (all must be fumigated before arriving in the country).
- Beware of toxic glues, paints and finishes. They might not (noticeably) negatively effect an adult, but all these chemicals produce a gas that most of us get so accustomed to smelling, we forget it's even there.
- Mattresses should NOT be placed directly on to the floor as they need to 'breathe'. Our Organic Cotton is a natural product that needs airflow as it is a breathing product. This in turn allows your body to breath comfortably and release toxins while you sleep.
- It is important to note that baby mattresses are NOT put on to a flexi slat base. A bed base should be firm. The use of 'box frame' bases is also not suitable because of the irregularities in the sizing of mattress due to puffiness of cotton.

WHAT TO DO INSTEAD: It is for this reason that we recommend the mattress be supported by a hardwood slat cot or bed base MADE IN AUSTRALIA from Australian Timber, without toxic glues, fumigation, MDF or finishes. These allow the mattress to receive continual air flow that helps dissipate unhealthy toxins picked up by the body during the day, and

release them from the body naturally during sleep. See our thoughtfully designed range of [non toxic 100% Organic Cot, Cradle and Hardwood Bed Bases](#).

PLEASE NOTE: Latex products are NOT organic or 100% natural.

DOWNLOAD: [The Truth About Latex Mattresses – CONSUMER AWARENESS GUIDE](#)

Some people go nuts about BAMBOO PRODUCTS too because they are told that they are natural and anti-bacterial. But bamboo fibres are converted with chemicals to produce the yarn. This makes the process 'man-made' and therefore synthetic, not natural and certainly not certified organic.

WHAT OTHER PEOPLE HAVE TO SAY:

REVIEW: Kerry |  | 9/10/2015 | Words cannot express the peace of mind this mattress will give you. It is worth every \$\$\$ that you spend. Did you notice how much babies love to sleep on their tummies with their face on the side and nose/mouth just above the mattress. Think about what they are breathing in. You have this mattress which is pure organic cotton bliss, then you have the average mattress with horrible synthetic materials and the chemicals they are treated with (which we often just don't know about as of course they don't advertise that bit). Couple that with a tiny little babies respiratory system and body. Do your research, minimise the risks wherever you can. I did my research and the safety and quality that Organature provides is exactly what I was looking for. I love thia organic mattress!!!

REVIEW: Dianne |  | 20/08/2013 | We are really pleased with this mattress. We also purchased the cot and being a first time Mum, I was worried how he would go transitioning from the small cradle to the cot but he slept, well, like a baby!! Mum, Dad and baby boy all very pleased! I highly recommend the innerspring mattress and the cot. I love that my little man has a 100% organic bed. I smile every time I walk past it.

REVIEW: Luciana |  | 01/04/2013 | I LOVE LOVE LOVE this mattress! Worth every cent & definitely value for money. Highly recommend to anyone. The service was also lovely. Thank you :-).

Cot Futon Organic Cotton Mattress AUSTRALIA

Our futon mattresses are made from 100% GOTS certified Organic fabric and filling.

Our futons were originally intended to satisfy the needs of very chemically sensitive people whose everyday health and wellbeing depend on a non-toxic nights sleep above all else. If after reading this you are still sure a futon mattress is what you are looking for be aware and prepared for the extra maintenance required because if the regime of regular turning and airing is not strictly followed by you, then we cannot be held responsible. Any size futon mattress, including cradle and cot, must

be used on both sides and requires regular turning. It is imperative, that any size, is used on a [hardwood slat base bed/cot or cradle](#).

When using a cot, cradle or other size futon for a bed wetter (including the inevitable nappy leaks) ALWAYS layer our [mattress pads](#) or OLD washed towels under the [mattress protector](#) and check/ wash and replace every day as none of these products contain or are covered with waterproof material. However, they do provide the BEST water resistance than any natural organic protector can provide.

Please also, take a moment to read our very important 'care' instructions below.

To allow for proper air circulation, for increased effectiveness of the health benefits gained when using these certified organic products on a daily basis and to prevent mould and mildew forming, your organic cotton mattress/futon should always be placed on a good quality slat bed base. We strongly recommend that you use one of our [natural timber slat bed bases](#) in conjunction with your organic cotton mattress, which has been custom made in a healthy environment from Australian plantation hardwood.

The Organature Futon mattresses are made from our carded (fluffed out) organic cotton and appear softer to begin with but, as with all Natural fibres, the cotton compresses, creating a firm surface. Futon mattresses and toppers filled with

100% natural fibres such as cotton, wool, kapok, straw etc. are not the same as conventional futons and toppers; even these different natural fibre filled ones vary in construction and sleeping. Conventional futon mattresses and toppers are softer because they contain synthetic foam, memory foam, foamed rubber (incorrectly referred to as latex), or a combination of these chemical laden products. Natural fibre futons are perfect for children as children are lighter in weight and thus slowly compress the filling, adjusting to the firmer sleeping surface.

Free from dangerous toxic chemicals. ('Non-iron', 'Easy care', 'Wrinkle free', 'Permanent press', 'Ultra Fresh', 'Water-proof' and 'Flame proof').

100% CERTIFIED ORGANIC COT FUTON APPROXIMATE SIZES: All Approx.10cm deep.

- Cot 69 (1300 x 690 mm).
- Cot 70 (1400 x 700 mm). [MADE TO ORDER ONLY](#)
- Cot 75 (1300 x 750 mm). We've found that our Cot 77 Futon Mattress is suitable for a Cot 75.
- Cot 77 (1320 x 770 mm).

REVIEW: Sandra Bitunjac |  |09/09/2014 | Great product and great customer service. My 3 year old daughter loves her new mattress.

REVIEW: Meagan Zieba |  |19/08/2014 | I have two of these futons, a standard one and one that was made to order to fit a non-standard bed frame. The mattresses are very comfortable and my children love them. The customer service (particularly for the made-to-order mattress) was very good, and all the staff I spoke to were extremely helpful. Delivery was quick and the mattresses were well packaged. I try to purchase Australian made products as much as possible, so it was great to discover organic bedding made in Australia.

REVIEW: Beck Rodgers |  |11/03/2017 | I recently purchased a bed from you for my son, including futon mattress and bedding, and I firstly wanted to say how great your product is. I was a little nervous about the futon mattress being too hard but I introduced it as the "cloud bed" and it has brilliant! Additionally I want to say your sheets were great - I think I could have put them straight on the bed without washing them first. No chemical smell there.

Mattress Overlay - Organic Fleece - all sizes

These mattress overlays are made from 100% GOTS Certified Organic Cotton Fleece which is similar to sweater fabric. They sit on top of the mattress and are bound around the edges in organic poplin. Certified Organic Cotton fleece has a natural wax, which makes it water resistant, so they are not totally waterproof, but combined with our [Organic Suede-Flannel Mattress Protector](#) they will give you maximum protection achievable for a totally organic product, without needing to use a synthetic or plastic protector. Available only in natural fleece, these overlays would also make [lovely organic blankets](#).

COMPLIMENTARY PRODUCTS:

- [Organic Suede-Flannel Mattress Protector](#) which also sits on top of your mattress and tucks underneath like a fitted sheet to keep everything in place.
- An [Organic Flannel Mattress Underlay](#) which is generally used between the mattress and bed frame to protect your mattress from discoloring due to the natural oils in the timber base, or even as an alternative to the mattress protector.

CARE INSTRUCTIONS:

Wash in water no hotter than 30 degrees, as higher temperatures will wash out the wax more quickly. If soiled, use vinegar in the washing water to remove odours. If very soiled use borax and follow directions on the pack.

APPROXIMATE BABY SIZES:

- Bassinet/Cradle 46 x 90 cm.
- Cot 69 x 130 cm.
- Cot 77 x 130 cm.

Mattress Underlay - Certified Organic Suede Flannel - all sizes

100% Certified Organic Cotton. Made from our 100% Organic GOTS certified Suede Flannel 280 fabric, our mattress underlay will provide protection for your mattress, from the natural stain that can come from a natural timber bed base.

CARE INSTRUCTIONS: These underlays will shrink, mostly in length during the first wash due to this these products have been made longer and may seem too long for the mattress to begin. Machine washable at a maximum temperature of 30 C and may be tumble dried on a warm setting again at a maximum temperature of 30 C.

Available in all standard bed dimensions, approximate sizes are below:

- Bassinet (44 x 90 cm)
- Cradle (48 x 90 cm)
- Cot 69 (1300 x 690 cm)
- Cot 75-77 (1320 x 770 cm)
- Single (910 x 1900 cm)
- Single Long (910 x 2030 cm)
- King Single (1070 x 2030 cm)
- Double (1370 x 1900 cm)
- Queen (1510 x 2030 cm)
- King (1830 x 2030 cm)
- Super King (2030 x 2030 cm)

Mattress Protector Pads - Organic Brushed Flannel - natural

Our Protector Pads are made from 100% GOTS Certified Brushed 280 gsm Flannel. They are a practical protective mat for your babies bassinet/cradle or cot that is water resistant and perfect for that extra layer of added protection. Made from 2 layers of our 100% Organic Brushed Flannel. Available in Natural Only.

AVAILABLE SIZES:

- **Small Square 1 pack – approx. 32 x 32 cm overlapped edge.**
- **Small Square 2 pack – approx. 32 x 32 cm overlapped edge.**
- **Large Square – approx. 70 x 70 cm bound with natural poplin.**
- **Rectangle – approx. 40 cm x 75 cm unbound. Suitable for cradle, bassinet or pram.**

Change Table Travel Mat - Organic Suede Flannel - natural

Change Table Travel Mat made from 100% GOTS Certified Organic Suede Flannel fabric. Lovely and soft change mat, that is water resistant and perfect to have in your nappy bag. Made as a double layer of suede flannel fabric, with a middle seam for easy travel and folding. Can be used as a single long layer, or folded in half along the centre seam for extra protection in one area of your change table. Available in Natural Only (No bleach/dye).

SIZE: Approx. 60 x 34 cm.

EDGE STYLE CHOICES:

- **Overlocked Edge – edged in overlocking stitching.**
- **Bound Edge – bound in natural organic cotton binding.**

Mattress Topper Australia - Certified Organic Fabric and Filling - all sizes

Our Organic Cotton Mattress Toppers are made from 100% GOTS certified organic fabric and filling. These are the cleanest, healthiest and best chemical-free toppers and completely natural mattress boosters currently available in Australia.

Mattress Toppers are similar to the [Futon Mattress](#) but approx 5 cm thick. They are ideal for extra protection for your mattress or for extra warmth. Organic cotton toppers are NOT the same as conventional toppers. Unlike conventional Cotton Toppers, (which are allowed to have 5% undisclosed

filling), ours do not have any chemical filled foam or latex to give them a softer feel. As cotton does not have any memory (like foam or latex), they will not spring back into their original form.

Natural fibre futons and toppers are perfect for children as children are lighter in weight and thus slowly compress the filling, adjusting to the firmer sleeping surface. Please note, that as per all products made from natural fibre, our Organic Cotton Topper will start off quite full and soft but very quickly become very flat and firm.

All our mattresses and toppers are individually handmade, we only use certified organic cotton in its purest state, and none of our products are fumigated due to medical exemptions in order for your health, comfort and peace of mind. Free from dangerous toxic chemicals like those used to create waterproofing, insect proofing and flame proofing. Your health and well-being is our priority! For further information on this please refer to our [FAQs](#) page.

AVAILABLE COT SIZES:

- Cot 69 (690 x 1300 mm). Depth approx. 7 cms to begin with and will compress with time and use.
- Cot 75 (750 x 1300 mm) Depth approx. 7 cms to begin with and will compress with time and use.

Children and adult sizes are also available.

Cot Sized Trundle Bed (toddler trundle) – AUSTRALIAN MADE 100% Organic

Perfect as a toddler bed, this petite trundle on castors (2 of the wheels are lockable), fits our standard Cot 69 (130 x 69 cm) innerspring or futon mattress. MADE TO ORDER in Organature's workshop using Australian hardwood. Using timber without chemical fumigation.

- Bed Bases are supplied flat packed.
 - Bolts and keys supplied for easy assembly.
 - Minimal glue used, dries rock hard so NO out-gassing.
 - Suitable for Cot Sized Futon Or Innerspring (see below)
- Not available without Castors or Legs - as the mattress needs to breath.

The trundle frames are made with 90 x 19 mm 100% Mountain Ash hardwood, first grade, obtained from a local mill avoiding maximum carbon footprints. The slat base is made with 65 x 19 mm 100% Mountain Ash hardwood, standard grade, with spaces between slats to allow maximum airflow. The slat base is made as two separate frames to avoid slat movement the slats are nailed to provide extra strength and provide extra stability to the frame. The trundle can be provided with locking castors or short legs, it cannot lay directly on the ground as that prevents airflow.

Minimal commercial glue is used; natural glues used many years ago are not available; "Peter who is chemical sensitive" has tried this glue and does not get any adverse re-actions. Where this glue is used, it is only positioned between timbers and dries rock hard within 5-10 minutes. The combination of fast drying and positioning between timbers avoids any chemical out-gassing.

OPTIONAL COT FUTON OR INNERSPRING MATTRESS SUGGESTION: These fit the Toddler Trundle perfectly.

[Cot Futon Mattress 130 x 69 cm – Certified Organic Fabric and Filling](#)

[Cot Innerspring Mattress 130 x 69 cm – Certified Organic Fabric and Filling](#)

Hardwood Change Table - Marley - AUSTRALIAN MADE 100% Organic

Baby change table with 2 shelves for useful storage space which includes an Organic Cotton Top Mattress to lie baby on.

- Height 98 cm.
- Floor Space 52 cm (Width) x 81 cm (Length).
- Change Mat Area 73 x 46 cm.

RECOMMENDED EXTRAS: [Sheet](#) or [Mattress Protector](#) can be purchased as a separate item.

MADE TO ORDER in Organatures' workshop with Natural Australian hardwood.

- Using timber without chemical fumigation.
- Minimal glue used, dries rock hard so NO out gassing.
- Bolts and keys supplied for easy assembly.

ORGANIC TIMBER FINISHES: Choose raw and sanded, or with natural plant and mineral based oil. You may also choose to purchase raw and sanded and apply the oils yourself, here is a link to the [Livos](#) website.

IMPORTANT INFORMATION ABOUT TIMBER FURNITURE SOLD IN AUSTRALIA: Did you know that most conventional wooden furniture is made using toxic glues and finishes? Imported timber must be fumigated before it can enter the country. Almost all timber furniture, cots, cradles, chests, bunks and beds sold in Australia ARE imported.

All Organature® Bed Linen, Beds, Bunks, Cots, Trundles and Hardwood Furniture is chemical-free, toxin-free, additive-free. NO Harmful chemicals, NO MDF, NO Chipboard, NO Chemical Paint and NO Toxic Glues are used during any part of the manufacturing process. Proudly MADE IN AUSTRALIA where we can guarantee the purity of the manufacturing process from start to finish ... so we can confidently call it 100% Organic.

TO FIND OUT MORE: Please read [Why Our Furniture Is A Healthier Option](#).

Hardwood Change Table - Sophie - AUSTRALIAN MADE 100% Organic

Baby change table with 2 shelves, 1 drawer and lotion 'caddy' at opposite end for extra storage. Includes Organic Cotton Top Mattress.

- Height 98 cm.
- Floor Space 52 cm Width x 99 cm (Length).
- Change Mat Area 73 x 46 cm.

RECOMMENDED EXTRAS: [Mattress Sheet](#) or [Mattress Protector](#) can be purchased as a separate item.

MADE TO ORDER in Organatures' workshop with Natural Australian hardwood.

- Using timber without chemical fumigation.
- Minimal glue used, dries rock hard so NO out gassing.
- Bolts and keys supplied for easy assembly.

DELIVERY: All Organature furniture, beds, mattresses, futons, bed bases and toppers are professionally delivered right throughout Australia by a specialist courier service. These items are carefully packaged and sent from our hygienic factory in Victoria and freight is charged according to your postcode. This cost is not included in your online order, and we will contact you to confirm quote prices. Feel free to email us to get a quote price before placing your order. If you select 'Pick up from store' - this will still incur a \$50 fee for transport from our craftsman/factory to our shop in Newhaven.

HEALTHY FURNITURE: All Organature® Bed Linen, Beds, Bunks, Cots, Trundles and Hardwood Furniture is chemical-free, toxin-free, additive-free. NO Harmful chemicals, NO MDF, NO Chipboard, NO Chemical Paint and NO Toxic Glues are used during any part of the manufacturing process. Proudly MADE IN AUSTRALIA where we can guarantee the purity of the manufacturing process from start to finish ... so we can confidently call it 100% Organic.

Organic Cotton Bassinet, Cradle, Pram Mattress - MADE TO ORDER

These futon style mattresses are made to order to your size requirements in the Organature hygienic sewing room from 100% GOTS Certified Organic Cotton. The natural outer fabric contains no dyes or bleaches. The filling is 100%, air cleaned GOTS Certified Organic Cotton. It is totally safe for baby and contains no formaldehyde or flame retardant chemicals, no nerve toxins, absolutely no additives, just the ultimate, purest organic product available.

MADE TO ORDER SPECIAL SIZES/SHAPE: Oval or rectangle.

Pram / Stroller Liner – Certified Organic Cotton Fabric & Filling

These versatile quilted cotton liners which are made from 100% GOTS Certified Cotton are perfect for that extra organic layer in your stroller. Available in Natural only (no bleach/no dye) – quilted style rectangle, poplin outer with bound edges and soft cotton filling.

SIZES:

- Small = 24 x 68 cm in size approx.
- Medium = 32 x 90 cm in size approx.
- Large = 47 x 105 cm in size approx.

Please note that there are no allowances for harnesses, ideal for a home sewer to add if required.

Hardwood Chest Of Drawers - AUSTRALIAN MADE 100% Organic

Solid Handcrafted Victorian Ash Hardwood Chest of 5 large drawers using timber specially selected from managed plantations in Australia.

Purchased from a local mill to reduce carbon footprint. With No Harmful chemicals, No MDF, No Chipboard, No Chemical Paint and No Toxic Glues.

Comes with wooden handles unless otherwise requested. Backed with 100% Organic Calico.

WHY DO WE USE ORGANIC CALICO TO BACK THIS CHEST? Most places will back timber chests with cheaper MDF as it's not seen, but MDF

or ply is put together with toxic glues. If we were to back with hardwood it would not only be super heavy but also way more expensive and we find the calico is a gentle organic option.

- Height 100 cm
- Top 44 x 80 cm
- Inside of drawers 63 x 34 cm
- Depth of drawers 10 cm

MADE TO ORDER in Organatures' workshop using Australian hardwood without chemical fumigation. Minimal glue used, dries rock hard so NO out gassing. Bolts and keys supplied for easy assembly.

ORGANIC FINISHES: Choose raw and sanded, or with natural plant and mineral based oil. We source our oils from Livos who have a range of other colours. You may also choose to purchase raw and sanded and apply the oils yourself, here is a link to the [Livos](#) website.

Fitted Sheet FOR BABIES - Organic Poplin - various colours

One Only Organic Cotton Fitted Sheet. Made in Australia from 100% GOTS Certified Organic Cotton Poplin in a variety of delicious colours.

MEASUREMENTS BELOW IN CM:

- Cot Fitted Sheet – 77 x 132 x 20 cm wall
- Cradle Fitted Sheet – 48 x 94 x 10 cm wall
- Bassinet Fitted Sheet – 42 x 76 x 8 cm wall (we suggest if your bassinet is larger than this size, to go up to Cradle Size)

This Poplin is a lighter weight deluxe fabric, similar to Percale but of a greater quality. Suitable for most climates all year round and available in a range of colours and styles that form part of our most popular Baby Nursery Australia plain dyed Organic Cotton Poplin Range.

- [Sheets Sets](#)
- [Flat Sheets](#)
- [Fitted Sheets](#)
- [Pillowcases](#)
- [Cushion Covers](#)
- [Quilt Covers](#)

Colours: Our Natural colour is NOT treated/bleached/or dyed in any way. None of our fabrics are finished with harmful and toxic dye setters therefore some colour running and slight fading can occur, especially in the darker colours. As different computers may display colours differently, the colour of the actual item may vary slightly from the images pictured. If you are unsure about colours, please do not hesitate to contact us for samples.

(*Note that the Fitted Sheet is elasticated around the edges, to fit comfortably on all mattress depths. Cradle and Bassinet sizes are elasticated at ends only to avoid mattress rising.)

Flat Sheet FOR BABIES - Organic Poplin - various colours

One Only Cuffed Flat Sheet. Made in Australia from 100% GOTS Certified Organic Cotton Poplin in a variety of delicious colours.

Fitted Sheets - Cream Organic Cosy Flannel - VARIOUS SIZES

One Cream Cosy Flannel Fitted Sheet made in Australia from 100% GOTS certified organic fabric.

This beautiful organic fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette – so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm. Some people may even call it luxury organic flannelette. To allow for shrinkage these fitted sheets have been made slightly larger. Cream Cosy is a very light cream non-harmful dyed fabric.

ALSO AVAILABLE IN THIS LUXURY COSY FLANNEL RANGE:

Sheet Sets – [Raw Cosy Flannel \(natural\)](#) – Cream Cosy Flannel

Fitted Sheets – [Raw Cosy Flannel \(natural\)](#) – [Cream Cosy Flannel](#)

Flat Sheets – [Raw Cosy Flannel \(natural\)](#) – [Cream Cosy Flannel](#)

Quilt Covers – [Raw Cosy Flannel \(natural\)](#) – Cream Cosy Flannel

Pillowcases – [Raw Cosy Flannel \(natural\)](#) – [Cream Cosy Flannel](#)

Cushion Cover – [Raw Cosy Flannel \(natural\)](#) – Cream Cosy Flannel

Flat Sheet - Cream Organic Cosy Flannel - VARIOUS SIZES

One Cream Cosy Flannel Flat Sheet made in Australia from 100% GOTS certified organic fabric. This beautiful organic fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette – so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm. Some people may even call it luxury organic flannelette. To allow for shrinkage, the fitted sheet, flat sheet and pillowcases have been made slightly larger. Cream Cosy is a very light cream non-harmful dyed fabric.

Pillowcases - Cream Organic Cosy Flannel - VARIOUS SIZES

Cream Cosy Flannel Assorted Pillowcases made in Australia from 100% GOTS certified organic fabric. This beautiful organic fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette – so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm. Some people may even call it luxury organic flannelette. To allow for shrinkage the Pillowcases have been made slightly larger. The pillowcase is sewn with a turn through and bound open edge. Cream Cosy is a very light cream non-harmful dyed fabric.

Quilt Cover - Organic Raw Cosy Flannel - ALL SIZES

Raw Cosy Flannel Quilt Cover made in Australia from 100% GOTS certified organic fabric and bound with Organic Poplin.

This fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette – so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm.

This fabric is also raw, which means it is un-dyed, un-bleached, un-treated and has natural flecks in the colouration. The perfect choice for people wanting to live as allergy-free and sensitivity-free as possible.

Organic Cotton Breast Pads - 2 Pack

Our reusable breast pads provide a healthy environmentally friendly alternative to disposable pads.

Made from 100% GOTS certified cotton they are soft and breathable and are super soft and fluffy with no harmful chemicals.

Organic Cotton is soft, pure and gentle on your nipple.

Pack of 2 nursing pads which measure 14cm diameter.

Versatile Wipes (cloths) - CERTIFIED ORGANIC COTTON

Made from our 100% GOTS Certified Organic Cotton Fleece, Flannel or Corduroy. Versatile Wipes are very useful. They can be used as to remove make up, as travel wipes for babies and kids hands and faces. The Organic Flannel 280 wipes make terrific kitchen wipes and dust cloths. All colours in the Organic Fleece are produced with low impact dye and are also 100% GOTS Certified Organic.

ORGANIC FLANNEL 280 is available in Natural only and in 2 sizes - Small 10 pack (size approx. between 20 cm to 30 cm squares). Large 5 Pack or 10 Pack (approx. 30 cm to 40 cm squares) - with overlapped edges. Terrific kitchen wipes and dust cloths.

ORGANIC FLEECE. Size is between 20 cm to 30 cm squares (small), and 30 cm to 40 cm squares (large) with overlapped edges. Available in assorted coloured 5 or 10 packs. If you require Natural Fleece (light weight) that is un-dyed and un-bleached or our Raw Cosy Flannel (winter weight), follow this link to our [Organic Baby Wipes](#).

ORGANIC CORDUROY versatile wipes available in 10 packs. Small size approx. 20 x 20 cm. These would be perfect for use with natural face scrubs, due to their textured surface, or for use in the kitchen. Natural only.

REVIEW: Robyn Goulding | ★★★★★ | 08/01/2015 | I recently purchased the Versatile Wipes for my 7 Yr old female Labrador dog to use as a soft wipe for her face. She had a Mast Cell Tumour diagnosis last year and suffers with ulcers under her chin occasionally. So I needed something that would be gentle and effective to mop her chin after her water bowl drinks. The versatile wipes are the best thing. They are so gentle and she doesn't mind in the least when I touch her chin now and waits until I have mopped her chin dry. Before I had a non-organic cotton washer and whilst she would let me wipe her chin she would move away as soon as possible. I also tried one for my makeup removal and I was pleasantly surprised at the smoothness and gentle effectiveness in removing even eye makeup and mascara. I'm a qualified beauty therapist and I have not had anything that did not drag on the skin especially around the delicate eye area before using the versatile wipes. Just a beautiful feel on the skin. Thank you Peter and Team.

Baby Sleep Sack - Organic Fleece - various colours

Made from our 100% GOTS Certified Organic Fleece, these sleep sacks are great to keep baby covered during the night as they can't kick it off. The Fleece is warm and cosy, yet cool enough in Summer as it allows your babies body to breathe.

Great in Winter over a babygrow, or in Summer just over the nappy. They have a pearl stud on each shoulder opening, but are otherwise enclosed at the bottom and all around to keep baby snug, yet not tight to allow for some natural, free movement.

Available in a range of colours including natural, which is unbleached and undyed for those who are wanting the most allergy-free and sensitivity-free garment they can possibly get.

Organic Cotton Blankets - Light Weight Fleece - various colours

Our Luxury Blankets for adults, children and babies are made from 100% GOTS Certified Organic Fleece and are ideal during Summer or as an additional blanket for extra warmth on those colder nights. Cosy luxury without overheating. It's a little like a high quality windcheater or fleece track pant fabric (for want of a better description), fluffy one side and smooth the other. It feels nothing like scratchy wool ... but soft and gentle ... in fact it's really nice to snuggle up in and have next to your skin.

COLOURS: Natural, Pink, White, Cafe Latte, Mint, Black, Slate and Moonlight -

AVAILABLE SIZES – From toy blanket, bassinet and cot sizes, all the way through to super queen and super king.

Organic Cotton Koala Print - Sheets, Cushion and Quilt Covers - Mint or Natural

'Koala' - NOT just for the Little Kids

Our latest design for Children's and Adults bedlinen and curtain fabric, Koala is made from 100% GOTS Certified Organic Cotton without those bold and garish colours to keep the little ones awake at night. Koala comes in two beautiful, subtle colour ways:

Natural and Mint

Both are also suitable to mix and match with our plain dyed [flat sheets](#), [fitted sheets](#), [sheets sets](#), [pillowcases](#), [cushion covers](#) and [quilt covers](#) Natural and Mint which are also made from 100% Certified Organic Cotton Poplin. The Poplin is a lighter weight deluxe fabric, suitable for most climates all year round.

- **Sheets and Sheet Sets** are available in Cot, Cot 77, Single and King Single sizes.
- **Quilt Covers** are available in Cot, Single, King Single, Queen and King sizes.
- **Quilt Cover Sets** are available in Cot, Single, King Single, Queen and King sizes. Cot, Single and King Single come with ONE Pillowcase, Queen and King come with TWO Pillowcases.
- **Cushion Covers** 40 x 40 cm are also available.

[This gorgeous fabric is also sold by the metre.](#)

Organic Cotton Baby Nappies - 12 or 6 Pack

Our baby nappies are made from 100% GOTS Certified Organic Cotton. They are super soft and fluffy and made from an ideal fabric to put next to your little babies sensitive skin. These could also be used to wipe up spills, as burp cloths, mini-towels and more ...

Available in Natural only.

Approx. 70 x 70 cm

Nappy Liners - Organic Cotton - small or large

Organic Cotton nappy liners, made from our beautifully soft 100% GOTS certified organic cotton fleece or organic terry towelling fabric. The liners are designed to fit into a conventional reusable nappy: These comfortable liners are safe and soft on your babies skin. Available as 1 only OR in Packs of 4.

LARGE ORGANIC FLEECE: approx. 32 x 32 cm in size - when folded approx. 12 x 35 cm. Available in Natural and White Fleece.

SMALL ORGANIC FLEECE: approx. 27 x 21 cm in size - when folded approx.: 8 x 27 cm. Available in Natural and White Fleece.

LARGE ORGANIC TERRY TOWELLING: approx. 10 cm x 45 cm. Available in Natural Organic Terry Towelling

SMALL ORGANIC TERRY TOWELLING: approx. 10 cm x 40 cm. Available in Natural Organic Terry Towelling.

[BOOMERANG PILLOW – Luxury Organic Silk Cotton \(soft\)](#)

Our Luxury Boomerang pillows are made with 100% Certified Organic Cotton fabric and 100% Silk Cotton filling and are medium soft to medium firm to sleep on depending on how much filling you keep inside the covering. No synthetic fibres, no polyesters, no additives to cause perspiration. Ideal for neck support while reading, shoulder support when lying on your side and for nursing mothers to breastfeed in a more comfortable way, without tiring out arms. Some filling can be removed to make it even easier to bend and scrunch to adjust to the desired position.

Because our pillows are made with 100% natural fibres, after time they will compress down, so a quick daily fluffing is recommended (as you would with a feather / down pillow). Like in nature, natural cotton is inconsistent. Sometimes the pillows can be 'lofty' to start with, and sometimes a little more settled. Nature cannot be shaped into a consistent form unless man-made fibres and chemicals are added, which Organature WILL NOT do. Pillows stuffed with silk-cotton act most like standard pillows. They have loft, can be fluffed, do not need to be punched in the middle of the night and retain their shape well.

ABOUT THE OUTER COVERING: This pillow is made with natural organic cotton outer (un-dyed, unbleached, un-treated fabric), with a zippered end. The zip is to allow you to take out filling to obtain the optimum comfort level and then allowing you to re-fill if required.

ABOUT THE SILK-COTTON FILLING: "Silk" Cotton is a special strain of cotton. It is 100% Silk Cotton. Silk Cotton is the same as Kapok and comes from the kapok tree. There is no 'silk' in the pillows. The silk-cotton fluff is actually buoyant and was used in the designs for the first life jackets, that is, until synthetic foams came on the market. It feels similar to the light weight feeling of down, but without the allergies and the loss of loft that go with feathers. The silk is luxurious to the touch and a medium firm support when pillows are stuffed full, softer when some filling is removed and more air is able to permeate the fibres.

The Silk-Cotton tree, (*Bombax ceiba*), is a native to the Asian tropics. It is an evergreen tree; not like the cotton plant. The tree grows naturally in jungle country areas, it is not grown on organized farms and it grows in all types of soil. Natural

rainfall is enough for this tree to flourish. No artificial fertilizers, no pesticides, no herbicides are used; it is free from GMO and is naturally clean because it grows high in the Silk-cotton tree. "Silk Cotton" is 100% True Organic. In India it is widely used for pillow filling. India has a hot and humid climate and is similar to many parts of Australia. Like Organic Cotton the Silk Cotton fibre helps to dissipate the heat from the human body and provides a sound sleep. Silk cotton is very soft and has a luster like silk; hence it is called Silk cotton, there is no 'silk' content, there is no 'cotton' content, only Cotton Silk.

Do you like comfort, practicality and versatility? Here are a couple ideas to make them even more useful.

- Neck support while reading.
- Sleep on your side on one arm of the pillow and wrap your leg over the other arm for ultimate comfort. (Your mate will thank you!)

- Use one for your back and one lying down on your knees as a cushioned stand for a book, ipad, breakfast tray or newspaper.
- Prop up a baby (or a pet) in the nook of the boomerang pillow and take some cute photos.
- Give several to the kids to make a soft cubby-house out of. And the bigger kids like them to sleep on as well.
- Great for feeding babies too. (I breast-fed two sets of twins and couldn't think of anything better).
- Wrap around behind you and use as lower to mid- back support while sitting on a couch. Makes it easier to hold an upright posture.
- Use to elevate your knees when lying down to increase circulation to the brain.

The boomerang pillow is perfect for people who prefer to sleep on their sides instead of their back. The design helps ease pain and stiffness in the neck or shoulders that often results from sleeping on your side without proper support. The boomerang shape is also suitable for those with a larger, broader frame that have difficulty getting comfortable when trying to get to sleep. Made from Luxury Organic Silk Cotton, you can happily stop worrying about those restless nights.

Not only is the shape delightful, but the case, cover, filling and pillow protector is: "Absolutely Purely Organic."

BOOMERANG PILLOWCASE - Organic Poplin - natural or white

Boomerang Pillowcase - made from 100% GOTS Certified Organic Poplin Cotton. Designed to fit our Organature Boomerang Pillows (standard boomerang size). Made in Australia in our Organature Sewing Room.

Available in Natural and White ONLY. Natural colour is NOT bleached or dyed in anyway.

Want the Boomerang Pillow Insert as well? [Here it is ...](#)
Want a Boomerang Pillow Protector too? [Here it is ...](#)

BODY PILLOW - Luxury Organic Silk Cotton

These Luxury pillows are made with 100% GOTS Certified Organic Cotton fabric and 100% Silk Cotton filling and are medium soft to medium firm to sleep on depending on how much filling you keep inside the covering. No synthetic fibres, no polyesters, no additives to cause perspiration.

Enjoy a comfortable and supportive night's sleep with our body pillow. This full length pillow will bring an extra layer of cushioning to your bed, and can be used to support a variety of sleeping positions. It is also ideal for side sleepers, maternity sleeping, creating a barrier between the sleeper and a wall, or simply relaxing in bed.

Our pillows are made with 100% natural fibres and after time they will compress down, so a quick daily fluffing is recommended (as you would with a feather / down pillow). Like in nature, natural cotton is inconsistent. Sometimes the pillows can be 'lofty' to start with, and sometimes a little more settled. Nature cannot be shaped into a consistent form unless man-made fibres and chemicals are added, which Organature WILL NOT do. Pillows stuffed with silk-cotton act most like standard pillows. They have loft, can be fluffed, do not need to be punched in the middle of the night and retain their shape well.

[The Organic Bedroom](#)

ORGANIC COTTON BEDROOM AUSTRALIA: All Organature® sheets, quilts, covers, cushions, pillows, protectors, mattresses and futons are made with 100% GOTS Certified Fabric and Filling to Global Organic Textiles Standard. This is your guarantee of purity. But Organature, as a family owned Australian Business offers even more than purity; we go to great lengths to provide you with cleaner, healthier, chemical-free goods and with higher quality production standards than what any certifications stipulate. Why? Well it all stems from a very personal reason ... [READ MORE](#).

YOUR HEALTHY BEDROOM STARTS HERE: For a restful night's sleep FREE from dangerous chemicals, avoid using conventional bedding that has fire retardants, water-proofing, harmful glues or dyes. Some are sold as 'Non-Iron', 'Easy Care', 'Wrinkle Free', 'Permanent Press', 'Ultra Fresh', 'Water-proof' and 'Flame proof'. They might sound good, but these are all chemical additives. If you sleep on products made from 100% GOTS Certified Organic Cotton fabric and filling instead, you can be at peace knowing for sure you are NOT breathing in any toxic fumes.

PLEASE NOTE: Latex products are NOT organic or 100% natural.

DOWNLOAD: [The Truth About Latex Mattresses – CONSUMER AWARENESS GUIDE](#)

Some people go nuts about BAMBOO PRODUCTS too because they are told that they are natural and anti-bacterial. But bamboo fibres are converted with chemicals to produce the yarn. This makes the process 'man-made' and therefore synthetic, not natural and certainly not certified organic.

RECOMMENDATIONS: If you are just starting out buying organic products to improve your health and general well-being, we recommend you begin with THE BEDROOM where you spend most of your time sleeping, and with the items that are closest to your skin. Certified organic filled pillows, organic cotton sheets, quilts, blankets, clothing, towels and bathrobes are a good start. If you are saving up to buy an [ORGANIC INNERSPRING MATTRESS](#) or [ORGANIC COTTON FUTON](#), a comfortable [Mattress Topper](#) (similar to the Futon but approx. 5 cm thick) might be a useful alternative in the interim.

NON-TOXIC BEDROOM FURNITURE AUSTRALIA: Assist your immune system even more by purchasing one of our AUSTRALIAN-MADE 100% Organic Hardwood Timber [BEDS, BUNKS, TRUNDLES](#) which are thoughtfully made in rural South Gippsland using Victorian Mountain Ash from managed plantations. With No Harmful chemicals, No MDF, No Chipboard, No Chemical Paint and No Toxic Glues.

*Please note that under the Health Act, Pillows, Underlays, Quilts, Bed Toppers, Mattresses and Pillow Protectors are NON-REFUNDABLE unless faulty.

ORGANIC BEDROOM FULL PRODUCT LIST: <https://organature.com/product-category/bedroom/>

[Organic Blankets](#)

ABOUT THE ORGANIC BLANKETS: The latest addition to our Organic bedroom range is the soft and snuggly ORG-FLEECE BLANKET, made naturally from all Organic cotton. A wonderful alternative on the warmer nights when a quilt gives too much warmth, yet a sheet alone is not enough. Use for extra cosiness for when the frost hits or snuggle up while watching your favourite TV program.

THE COLOUR RANGE: Our ORGANIC COTTON BLANKETS are available in 6 lovely colours (natural, pink, cafe latte, slate blue, white and light blue) and in all sizes. The Cot size and Bassinet / Cradle size makes an ideal 'receiving blanket' for the newest member of your family. They are lovingly made in our own workroom in South Gippsland Victoria.

Also available in this beautiful soft fleece are Mattress Overlay Protectors, Baby Sleep Sacks, Children's Dressing Gowns and Versatile Cloths.

ORGANIC BLANKETS FULL PRODUCT LIST: <https://organature.com/product-category/bedroom/blankets/>

Organic Cotton Blankets - Light Weight Fleece - various colours

Our Luxury Blankets for adults, children and babies are made from 100% GOTS Certified Organic Fleece and are ideal during Summer or as an additional blanket for extra warmth on those colder nights.

Cosy luxury without overheating.

This light-weight organic fleece is a little like a high quality windcheater or fleece track pant fabric (for want of a better description), fluffy one side and smooth the other. It feels nothing like scratchy wool ... but soft and gentle ... in fact it's really nice to snuggle up in and have next to your skin.

HOW TO KNOW IF A QUILT OR BLANKET IS BEST FOR YOU

An Organic Cotton [Summer Quilt](#) with a light organic blanket will probably be ideal most of the year. On those cold nights use both; during mild nights use a Quilt. Lightweight Organic Fleece Blankets are perfect for those nights when a quilt is too much and a sheet is not enough. A [Winter Quilt](#) may be required by those who really feel the cold.

AVAILABLE SIZES - These sizes in centimeters are approximate.

- Super King (also suitable for King) 260 x 240 cm (Made to Order)
- Queen/King 230 x 230 cm
- King Single, Double and Single Long 180 x 230 cm
- Single 160 x 210 cm
- Cot 90 x 140 cm
- Cot Large / Throw Rug 120 x 160 cm
- Bassinet/Cradle/Receiving 70 x 90 cm
- Pram/Bunny Rug 60 x 80 cm
- Toy Blanket 45 x 65 cm

COLOURS: Natural, Pink, White, Cafe Latte, Mint, Black, Slate and Moonlight - These might not be available in all sizes and all colours. The Natural Fleece is also un-bleached and un-dyed for those who are extra careful about what they put next to their skin. Natural, certified organic and unbleached is the ideal choice for people wanting to live as allergy-free and sensitivity-free as possible.

Organic Mattresses & Futons

ALL ORGANATURE MATTRESSES AND FUTONS ARE MADE FROM 100% GOTS CERTIFIED ORGANIC FABRICS AND FILLINGS: There's a big difference between 'natural', 'organic' and truly chemical free 'Certified Organic'.

Organature® Mattresses are unique to Australia, assembled and filled with the purest ingredients, manufactured to the highest standards and with the cleanest transporting currently available in Australia. Here's why ...

Peter, our founder, suffered severely from Multiple Chemical Sensitivity (MCS) and Organature® was born out of a need to alleviate his symptoms. The results from changing over to a 100% Organic Cotton and Australian Hardwood Bedroom were so incredible, it inspired him to help others feel better by reducing their exposure to chemicals too, so we only work with products that are safe for his use and with those he has fully researched and tested.

CONSUMER AWARENESS GUIDE EVERY AUSTRALIAN SHOULD READ: For a restful nights sleep FREE from dangerous chemicals, avoid using conventional bedding that has fire retardants, water-proofing, harmful glues or dyes. Some are sold as 'Non-Iron', 'Easy Care', 'Wrinkle Free', 'Permanent Press', 'Ultra Fresh', 'Waterproof' and 'Flame Proof'. They might sound good, but these are all chemical additives. If you sleep on products made from 100% GOTS (Global Organic Textile Standard) Certified Organic Cotton fabric and filling instead, you can be at peace knowing for sure, you are NOT breathing in any toxic fumes.

IMPORTANT FACTS ABOUT HEALTH AND WELL-BEING: Did you know that frequently present in conventional mattresses and bedding are High Volatile Organic compounds (VOCs) like phosphorus, arsenic and antimony, and nerve toxins like formaldehyde, benzene and toluene? Whether they be in the petroleum based, Polyethylene Foam, the petroleum and chlorine based Vinyl or PVC used for waterproofing (a known carcinogen, let alone, one of the most environmentally unfriendly plastics used today), or the petroleum based Fire Retardants ... separately or together ... they make up a toxic soup that is linked to immune suppression, hormone disruption, developmental delays, learning and memory problems, behavior changes, and cancer.

PLEASE NOTE: Latex products are NOT organic or 100% natural.

SLEEP BETTER – FEEL BETTER: Additives used in mainstream Mattress Production may not be harmful to the health of the general population, but it's especially important that people who are already susceptible to allergies, asthma, attention deficit, depression or other sensitivities, reduce their exposure to toxins (usually ones you can't even smell). We know that removing chemicals from your sleeping environment is essential for optimizing your body's ability to rejuvenate itself.

DISCOUNTS: We offer 10% discount for the ONLINE purchase of 2 or more [Innerspring Mattresses](#) OR 2 or more [Futon Mattresses](#). No other discounts apply. *Not valid on MADE TO ORDER SIZES.

DELIVERY: All Organature mattresses, futons, bed bases and toppers are professionally delivered right throughout Australia by a specialist courier service. These items are carefully packaged and sent from our hygienic factory in Victoria and freight is charged according to your postcode. This cost is not included in your online order, and we will contact you to confirm the delivery charge. If you select 'Pick up from store' – this will still incur a \$50 fee for transport from our factory to our shop in Newhaven. You are welcome to email us to get a quote for delivery before placing your order.

*Please note that under the Health Act, Pillows, Underlays, Quilts, Bed Toppers, Mattresses, Futons and Pillow Protectors are NON-REFUNDABLE unless faulty.

NON-TOXIC HARDWOOD BEDS: [Please also see our range of Healthy Hardwood Timber Beds, Bunks, Sofas, Cots and Trundles – AUSTRALIAN-MADE 100% Organic](#)

Innerspring Mattresses - 100% Certified Organic Cotton

Our Innerspring Mattresses are made from 100% GOTS Certified Organic fabric and filling. These are the cleanest, healthiest and best chemical-free mattresses currently available in Australia. A medium-firm to firm mattress with quality springs for comfort and long life. Available in all sizes and delivered directly to your home anywhere in Australia.

For a comfortable nights sleep, FREE from dangerous toxic chemicals. Manufactured with 100% GOTS Certified Organic Fabric and Filling.

100% SAFETY RECORD:

Our mattresses and futons are NOT waterproofed. Water-proofing is achieved with a plasticizing or chemical treatment and as we believe that chemicals contribute to a wide range of health issues, including asthma, eczema, attention deficit and especially [Sudden Infant Death Syndrome](#) (SIDS), we will not use it. However, along with our [organic mattress protectors](#) and [organic mattress overlays](#) or [organic mattress protector pads](#), you are guaranteed to have the BEST ORGANIC WATER RESISTANT product that's currently available in Australia today ... and the safest!

An Organature mattress, as with any mattress, should NOT be placed directly on to the floor as they need to 'breathe'. Our Certified Organic Cotton is a natural product that needs airflow as it is a breathing product. This in turn allows your body to breathe and naturally rejuvenate itself from the toxins picked up from the environment during the day, releasing them while you sleep, which is just one of the many benefits of the Organature mattress. It is for this reason also that we recommend the mattress be supported by a hardwood slat bed base. These allow the mattress to get continual air flow and assist your immune system even more. See our excellent range of non toxic [Hardwood Bed Bases](#).

It is important to note that these mattresses are NOT put on to a flexi slat base. The use of 'box frame' bases is also not suitable due to irregularities in the sizing of mattress, because of the puffiness of cotton.

ALL OUR MATTRESSES & FUTONS ARE MADE FROM 100% GOTS CERTIFIED ORGANIC FABRICS AND FILLINGS:

There's a big difference between 'natural', 'organic' and truly chemical free 'Certified Organic'. Organature® Mattresses are unique to Australia, assembled and filled with the purest ingredients, manufactured to the [highest standards and with the cleanest transporting](#) currently available in Australia. Free from dangerous toxic chemicals like those used to create waterproofing, insect proofing and flame proofing. Health and well-being is our priority!

INNERSPRING MATTRESS APPROXIMATE SIZES:

- Single (910 x 1900 mm)
- Double (1370 x 1900 mm)
- Queen (1510 x 2030 mm)
- King (1830 x 2030 mm)

REVIEW: Danielle | ★★★★★ | 18/04/2015 | We bought this mattress 4 years ago for our sons king single bed. It looks as new as the day we bought it and is the most comfortable mattress in our house. Firm but not hard. We turn it every few months. So much so that we cant get my husband off it so my son can have his bed back! We will be back for more in the future.

REVIEW: Margaret | ★★★★★ | 23/10/2014 | This is the best mattress I have ever slept on, I'm 66 years old suffered with skin allergies and asthma all my life. It is so wonderful to be able to go to bed without having to have itchy skin from the mattress material. There are no chemical smells from the mattress, it's wonderful the asthma is cut down by half. I'll be recommending Organature products to all my family and friends.

REVIEW: Meagan Zieba | ★★★★★ | 19/08/2014 | We purchased this mattress for our two-year-old daughter, and were extremely impressed by it. It's well-made, comfortable and very well suited for a child's mattress.

REVIEW: M Fleming | ★★★★★ | 19/08/2014 | I bought this mattress along with the bed base several months ago. When it arrived it I was impressed with the overall look of it - it really looked quality. It smelled so natural and Christmasy' (?) and I love it. It is really quite firm and I thought I would sleep badly due to this but it turned out to be the opposite and I always sleep deep and well. I am really happy with this bed and mattress and as I sometimes sleep on my face (!) I'm glad that I am not breathing in all the toxic chemicals that are rife through most beddings and furniture of today.

REVIEW: Anne | ★★★★★ | 01/04/2013 | I have been suffering with chemical sensitive's for a few years now, I had to remove virtually all the furniture from my house including my mattress that was made from polyurethane and other chemicals that where making me very sick. I have been sleeping on my new mattress for a few months now and it has made a huge difference, I can sleep all night without getting up to drink water 6-7 times a night (from a dry burning throat caused by the old chemical mattress) not to mention numerous other complaints I had caused by the old mattress and pillows. The new mattress is a bit firm compared to my old mattress and took a while to get used to, but I love it now and feel very safe and lucky to have it when I go to bed knowing I am not breathing in harmful gasses from nasty chemicals. My brothers and mother have tested it out, they loved it and plan to buy one from Organature when theirs need replacing.

Mattress Topper Australia - Certified Organic Fabric and Filling - all sizes

Our Organic Cotton Mattress Toppers are made from 100% GOTS certified organic fabric and filling. These are the cleanest, healthiest and best chemical-free toppers and completely natural mattress boosters currently available in Australia.

Mattress Toppers are similar to the [Futon Mattress](#) but approx 5 cm thick. They are ideal for extra protection for your mattress or for extra warmth. Organic cotton toppers are NOT the same as conventional toppers. Unlike conventional Cotton Toppers, (which are allowed to have 5%

undisclosed filling), ours do not have any chemical filled foam or latex to give them a softer feel. As cotton does not have any memory (like foam or latex), they will not spring back into their original form.

Natural fibre futons and toppers are perfect for children as children are lighter in weight and thus slowly compress the filling, adjusting to the firmer sleeping surface. A topper can be used on top of your old conventional mattress as protection from chemical out-gassing if finances are a bit tight, however, this is not the ultimate answer to ridding your bed and bedroom of chemicals. A full [Organic Cotton Mattress](#) on an [Australian Hardwood Timber Bed Base](#), is really the ideal solution.

Please note, that as per all products made from natural fibre, our Organic Cotton Topper will start off quite full and soft but very quickly become very flat and firm.

INSTRUCTIONS FOR USE ON AN EXISTING MATTRESS AND BED BASE

When purchasing Organature 100% Organic Cotton Topper to place on an existing bed to provide an organic layer between you and the chemicals that conventional mattresses commonly contain, here is some useful advice from Peter.

- When re-using existing bed bases and a conventional mattress, first make sure your bed base is free of mould. The best way to remove the mould is to wash/wipe thoroughly all over the base with a solution of 'Borax' in hot water. Follow the directions on the Borax pack. Borax is available from most supermarkets.
- If you are going to put the new topper on an existing mattress, this is the most important part: Either wrap plastic all around your existing mattress or at least on top and on sides of mattress; use the bags the toppers come in as they are polyethylene; the least toxic plastic. It is also less toxic than most conventional mattresses, and much less harmful than mould.
- Use our [Organic Cotton Mattress Protector](#) over the plastic. The walls of the protector tuck well under the mattress, however the fabric over the plastic will slide. If you don't like the 'feel' of that plastic under you, the best option is to use our [Organic Fleece Mattress Overlay](#) on top of the mattress with the protector over that.
- Air the mattress protector as often as you can.
- Purchase an [Organic Cotton Innerspring Mattress](#) as soon as you are able.

All our mattresses and toppers are individually handmade, we only use certified organic cotton in its purest state, and none of our products are fumigated due to medical exemptions in order for better health, comfort and peace of mind. Free from dangerous toxic chemicals like those used to create waterproofing, insect proofing and flame proofing.

SIZES:

- Cot 69 (690 x 1300 mm). Depth approx. 7 cms to begin with and will compress with time and use.
- Cot 75 (750 x 1300 mm) Depth approx. 7 cms to begin with and will compress with time and use.
- Single (910 x 1900 mm) Depth approx. 10 cms to begin with and will compress with time and use.
- Single Long (910 x 2030 mm) Depth approx. 10 cms to begin with and will compress with time and use.
- Single Wide (1070 x 1900 mm) Depth approx. 10 cms to begin with and will compress with time and use.
- King Single (1070 x 2030 mm) Depth approx. 10 cms to begin with and will compress with time and use.
- Double (1370 x 1900 mm) Depth approx. 10 cms to begin with and will compress with time and use.
- Queen (1510 x 2030 mm) Depth approx. 10 cms to begin with and will compress with time and use.
- King (1830 x 2030 mm) Depth approx. 10 cms to begin with and will compress with time and use.
- Super King (2030 x 2030 mm) Depth approx. 10 cms to begin with and will compress with time and use.

Futon Mattresses - 100% Certified Organic Cotton

Our Futon Mattresses are made from 100% GOTS Certified Organic fabric and filling. These are the cleanest, healthiest and best chemical-free futons and completely natural mattresses currently available in Australia.

Are you sure a 'futon' style mattress is for you?

Futons are traditionally made from cotton or other natural fibre and are hard / firm and not totally suitable for side sleepers. They have no 'give' or 'bounce'. They are of Japanese origin and ideal for children and people used to sleeping on a hard surface.

Do not choose to purchase a futon mattress for the wrong reasons:

1. It's trendy.
2. It is lightweight and will fold easily. (It isn't and it won't).
3. It is a cheaper version of an organic cotton innerspring mattress. It is a different type of mattress.

Our futons were originally intended to satisfy the needs of very chemically sensitive people whose everyday health and wellbeing depend on a non toxic nights sleep above all else.

If after reading this you are still sure a futon mattress is what you are looking for be aware and prepared for the extra maintenance required because if the regime of regular turning and airing is not strictly followed by you, then we cannot be held responsible. Any size futon mattress, including cradle and cot, must be used on both sides and requires regular turning. It is imperative, that any size, is used on a [hardwood slat base bed/cot or cradle](#). Feel free to contact us for further details and to help you choose a suitable bed base that's right for you.

Please also, take a moment to read our very important 'care' instructions below:

- To allow for proper air circulation, for increased effectiveness of the health benefits gained when using these certified organic products on a daily basis and to prevent mould and mildew forming, your organic cotton mattress/futon should always be placed on a good quality slat bed base.
- We strongly recommend that you use one of our [natural timber slat bed bases](#) in conjunction with your organic cotton mattress, which has been custom made in a healthy environment from Australian plantation hardwood.

The Organature Futon mattresses are made from carded (fluffed out) organic cotton and appear softer to begin with but, as with all Natural fibres, the cotton compresses, creating a firm surface. Futon mattresses and toppers filled with 100% natural fibres such as cotton, wool, kapok, straw etc. are not the same as conventional futons and toppers; even these different natural fibre filled ones vary in construction and sleeping. Conventional futon mattresses and toppers are softer because they contain synthetic foam, memory foam, foamed rubber (incorrectly referred to as latex), or a combination of these chemical laden products.

If you have never slept on, or used, a futon or topper filled with 100% natural fibres previously, we prefer to talk to you before proceeding with your order. Natural fibre futons are perfect for children as children are lighter in weight and thus slowly compress the filling, and adjust easily to the firmness. Please be advised that our futons are quite firm and over time, due to the nature of organic cotton will settle and compress. We recommend that you regularly turn and rotate your mattress because as creatures of habit, we tend to sleep in the same area of the mattress. If you like the idea of the futon but are looking for something not as firm, you may like our [Organic Cotton Mattress Topper](#) which provides an extra level of comfort for some people.

When using a cot, cradle or other size futon for a bed wetter (including the inevitable nappy leaks) ALWAYS layer our [mattress pads](#) or OLD washed towels under the [mattress protector](#) and check/ wash and replace every day as none of these products contain or are covered with waterproof material. However, they do provide the BEST water resistance than any natural organic protector can provide.

We recommend a [hardwood slat base](#) in order for the mattress, which allows airflow, we also recommend airing in sunshine as cotton is a breathable product and refreshes in the fresh air and sunshine. All our mattresses are individually handmade and we only use certified organic cotton in its purest state, none of our products are fumigated, in order for better health, comfort and peace of mind.

Free from dangerous toxic chemicals like those used to create waterproofing, insect proofing and flame proofing. Health and well-being is our priority!

100% CERTIFIED ORGANIC COTTON FUTONS APPROXIMATE SIZES:

- Single (910 x 1900 mm)
- Double (1370 x 1900 mm)
- Queen (1510 x 2030 mm)

REVIEW: Sandra Bitunjac |  |09/09/2014 |Great product and great customer service. My 3 year old daughter loves her new mattress.

REVIEW: Meagan Zieba |  |19/08/2014 | I have two of these futons, a standard one and one that was made to order to fit a non-standard bed frame. The mattresses are very comfortable and my children love them. The customer service (particularly for the made-to-order mattress) was very good, and all the staff I spoke to were extremely helpful. Delivery was quick and the mattresses were well packaged. I try to purchase Australian made products as much as possible, so it was great to discover organic bedding made in Australia.

REVIEW: Beck Rodgers |  |11/03/2017 | I recently purchased a bed from you for my son, including futon mattress and bedding, and I firstly wanted to say how great your product is. I was a little nervous about the futon mattress being too hard but I introduced it as the “cloud bed” and it has brilliant! Additionally I want to say your sheets were great - I think I could have put them straight on the bed without washing them first. No chemical smell there.

Mattress Protectors - Certified Organic Cotton Flannel - all sizes

Our Mattress Protectors are made from 100% GOTS Certified Organic Cotton Flannel. A brushed fabric which minimizes the penetration of dust mites without any filling for them to breed and hide in! Made with elasticised edging for easy removal as well as a snug and secure fit for your mattress. HIGHLY RECOMMENDED to preserve the life of your Organic Mattress. ALL sizes available.

ADDED BENEFIT: These Organic Flannel Mattress Protectors are also a useful stand alone product when an organic mattress is not available. Something pure to put between you and a potentially reaction-causing old mattress. They could also be used as sheets. Being a 100% organic

product, it is naturally water resistant but not waterproof.

PLEASE NOTE: Although there are waterproof protectors available from some “organic” product suppliers, their products ARE made to be waterproof with non-organic compounds which many include rubber, plastic and toxic chemicals. For these reasons we do not promote the use of these products. To achieve ultra water resistance the healthiest alternative is to use our [mattress protector pads](#) or [overlays](#) in conjunction with these organic flannel mattress protectors.

ABOUT THE FABRIC: You can read more [about the actual fabric and how it is made right here](#).

CAUTION: Do not use plastic covers on an Organature mattress as it will promote condensation which can lead to mould.

CARE INSTRUCTIONS: This fabric will shrink, mostly in length during the first wash. Due to this, these products have been made longer and may seem too long for the mattress to begin with. Machine washable at a maximum temperature of 30 C and may be tumble dried on a warm setting again at a maximum temperature of 30 C.

REVIEW: Kylie | ★★★★★ | 19/08/2014 | Bought the mattress protector with mattress topper after concerns about our fully water proof one - very happy with the purchase and even noticed it is so much cooler as well. Highly recommended.

Mattress Overlay - Organic Fleece - all sizes

These mattress overlays are made from 100% GOTS Certified Organic Cotton Fleece which is similar to sweater fabric. They sit on top of the mattress and are bound around the edges in organic poplin.

Certified Organic Cotton fleece has a natural wax, which makes it water resistant, so they are not totally waterproof, but combined with our [Organic Suede-Flannel Mattress Protector](#) they will give you maximum protection achievable for a totally organic product, without needing to use a synthetic or plastic protector. Available only in natural fleece, these overlays would also make [lovely organic blankets](#).

COMPLIMENTARY PRODUCTS:

- [Organic Suede-Flannel Mattress Protector](#) which also sits on top of your mattress and tucks underneath like a fitted sheet to keep everything in place.
- An [Organic Flannel Mattress Underlay](#) which is generally used between the mattress and bed frame to protect your mattress from discoloring due to the natural oils in the timber base, or even as an alternative to the mattress protector.

CARE INSTRUCTIONS: Wash in water no hotter than 30 degrees, as higher temperatures will wash out the wax more quickly. If soiled, use vinegar in the washing water to remove odours. If very soiled use borax and follow directions on the pack.

ALL SIZES AVAILABLE.

Mattress Underlay - Certified Organic Suede Flannel - all sizes

100% Certified Organic. Made from our 100% Organic GOTS certified Suede Flannel 280 fabric, our mattress underlay will provide protection for your mattress, from the natural stain that can come from a natural timber bed base.

CARE INSTRUCTIONS: These underlays will shrink, mostly in length during the first wash due to this these products have been made longer and may seem too long for the mattress to begin. Machine washable at a maximum temperature of 30 C and may be tumble dried on a warm setting again at a maximum temperature of 30 C.

Available in all standard bed dimensions, approximate sizes are below:

- Bassinet (44 x 90 cm)
- Cradle (48 x 90 cm)
- Cot 69 (1300 x 690 cm)
- Cot 75-77 (1320 x 770 cm)
- Single (910 x 1900 cm)
- Single Long (910 x 2030 cm)
- King Single (1070 x 2030 cm)
- Double (1370 x 1900 cm)
- Queen (1510 x 2030 cm)
- King (1830 x 2030 cm)
- Super King (2030 x 2030 cm)

Organic Pillows & Pillowcases

ORGANIC PILLOW SIZES: We have standard size pillows and cushion inserts as well as our Hi Loft, Europe, Cot and Travel sizes. We stock Boomerang, Queen and Body Pillows too. All made in Australia with GOTS Certified 100% Organic Fabrics and Fillings.

COMFORT: Due to popular request we have now added a new [Luxury Silk Cotton Pillow](#) to our range which is softer and similar in comfort to feather pillows. If you prefer to sleep on something firm, the [Certified Organic Cotton Pillows](#) will suit you best but please note, they don't fluff up like most others and over time will adapt themselves to your shape.

PURE ORGANIC FILLINGS AND COVERS: We are the only firm in Australia who make all bed linen and bedding accessories in our own sewing rooms and have total control over the manufacturing process. The essential ingredient in an Organature PILLOW is pure certified organic cotton which is grown without the use of harmful synthetic chemicals to fertilize the crop, control plant growth or fight pests. Manufactured in a clean environment and covered in our natural Organic cotton, our pillows do not create the excessive sweating endured when sleeping on a synthetic one.

READ: [Have You Seen What's In Your Pillows?](#)

PILLOW CARE: As there can always be those accidental spills, the use of our pillow protectors which may be washed and aired frequently, will help prolong the life of your healthy pillow purchase. Our PILLOW PROTECTORS are made in Australia from Organatures' exclusive Organic Suede Flannel fabric.

THE LIFE OF A PILLOW: If you're currently sleeping on cheap synthetic pillows, research suggest they should be replaced every 6 – 12 months and if you've ever opened them before you throw them away, you might be shocked at what you find. Our organic pillows last for 2 – 4 years before you need to consider replacing them. If you are feeling unwell, lethargic or unable to recover in reasonable time from an illness, getting a new pillow is the first thing we recommend to improve your general health and well-being.

**We always want you to be happy but please note that under the Health Act, Pillows, Underlays, Quilts, Bed Toppers, Mattresses and Pillow Protectors are NON-REFUNDABLE unless faulty.*

PILLOW - Luxury Organic Silk Cotton - various sizes (soft)

These Luxury pillows are made with 100% GOTS Certified Organic Cotton fabric and 100% Silk Cotton filling and are medium soft to medium firm to sleep on depending on how much filling you keep inside the covering. No synthetic fibres, no polyesters, no additives to cause perspiration. HIGHLY RECOMMENDED.

Our pillows are made with 100% natural fibres and after time they will compress down, so a quick daily fluffing is recommended (as you would with a feather / down pillow). Like in nature, natural cotton is inconsistent. Sometimes the pillows can be 'lofty' to start with, and sometimes a little more settled. Nature cannot be shaped into a consistent form unless

man-made fibres and chemicals are added, which Organature WILL NOT do. Pillows stuffed with silk-cotton act most like standard pillows. They have loft, can be fluffed, do not need to be punched in the middle of the night and retain their shape well.

ABOUT THE OUTER COVERING: This pillow is made with natural organic cotton outer (un-dyed, unbleached, un-treated fabric), with a zippered end. The zip is to allow you to take out filling to obtain the optimum comfort level and then allowing you to re-fill if required.

ABOUT THE SILK-COTTON FILLING: Silk" Cotton is a special strain of cotton. It is 100% Silk Cotton. Silk Cotton is the same as Kapok and comes from the kapok tree. There is no 'silk' in the pillows. The silk-cotton fluff is actually buoyant and was used in the designs for the first life jackets, that is, until synthetic foams came on the market. It feels similar to the light weight feeling of down, but without the allergies and the loss of loft that go with feathers. The silk is luxurious to the touch and a medium firm support when pillows are stuffed full, softer when some filling is removed and more air is able to permeate the fibres.

The Silk-Cotton tree, ([Bombax ceiba](#)), is a native to the Asian tropics. It is an evergreen tree; not like the cotton plant. The tree grows naturally in jungle country areas, it is not grown on organized farms and it grows in all types of soil. Natural

rainfall is enough for this tree to flourish. No artificial fertilizers, no pesticides, no herbicides are used; it is free from GMO and is naturally clean because it grows high in the Silk-cotton tree. "Silk Cotton" is 100% True Organic. In India it is widely used for pillow filling. India has a hot and humid climate and is similar to many parts of Australia. Like Organic Cotton the Silk Cotton fibre helps to dissipate the heat from the human body and provides a sound sleep. Silk cotton is very soft and has a luster like silk; hence it is called Silk cotton, there is no 'silk' content, there is no 'cotton' content, only Cotton Silk.

"Absolutely Purely Organic."

APPROXIMATE SIZES:

- Standard – 700 gram. 46 x 70 cm approx.
- Queen – 1000 gram. 53 x 73 cm approx.

Note: Pillow specification is based on weight of the fill and the height of the pillow.

PILLOW - Certified Organic Cotton - various-sizes (firm)

These pillows are made with 100% GOTS certified organic cotton fabric and filling and are quite firm to sleep on. No synthetic fibres, no polyesters, no additives to cause perspiration. Our Organic Cotton pillows are made with 100% natural fibres. They will compress down and will not fluff back into their original shape. Like in nature, natural cotton is inconsistent. Sometimes the pillows can be 'lofty' to start with, and sometimes a little more settled. Nature cannot be shaped into a consistent form unless man-made fibres and chemicals are added, which Organature WILL NOT do.

If you prefer a SOFTER PILLOW, please see our [Luxury Organic Silk Cotton Pillow range](#). HIGHLY RECOMMENDED.

APPROXIMATE SIZES:

- Cot/Travel – approx. 300 gram filling 37 x 58 cm
- Half Fill – approx. 350 gram filling 45 x 70 cm (Suitable for up to 7 Years of age – very LOW Pillow style).
- Medium Profile – approx. 900 gram filling 45 x 70 cm (Like a Standard pillow that has already compressed a bit but will compress further. The fill is heavier than a standard pillow due to the way the cotton is carded).
- Standard – approx. 700 gram filling 45 x 70 cm
- Standard Dense – approx. 1200 gram filling 45 x 70 cm (This pillow has the same dimensions as our standard pillow but due to the weight of the filling it is a more dense pillow. It also has a zippered end allowing for closure after filling. The zip tag has been removed as the pillow is not designed to be opened or for the filling to be altered in any way.)
- Hi Loft – approx. 900 gram filling 45 x 70 cm
- Europe – approx. 1100 gram filling 60 x 60 cm

Note: Pillow specification is based on the height of pillow, not the weight of the fill.

REVIEW: Chelsea |  | 07/01/2013 | These pillows are a life saver, after becoming allergic to my cheap nasty polyester pillows I had to throw them out and had been sleeping on a rolled up cotton towel. After punching in 100% cotton pillows into google I came across Organature and found that they had exactly what I wanted, cotton fill inside and cotton cover outside, chemical and fragrance free and organic to boot, what a bonus. I received my new pillows the very next morning after purchasing online. I bought a standard half fill for myself as I like to lay pretty flat and curl the very edge of the pillow up into the nape of my neck and a standard pillow for my boyfriend. We couldn't be happier with the pillows they are very comfortable and best of all no smells or nasty chemicals to make me sick. Thank you to everyone at Organature for helping me to sleep easier.

REVIEW: Eva |  | 23/02/2015 | I recently purchased two of these pillows, one for my husband and I. We've been using them for a few weeks now and I have to say that I've never been so happy with a pillow! There is always something I don't like - too high, too smelly, too hot etc, but these are perfect. My husband said to me yesterday "those new pillows are TOO good. I don't want to get out of bed in the morning!" He usually complains about pillows too! We specifically wanted organic too as we are gradually trying to go organic with most household items.

REVIEW: Mike V | ★★★★★ | 23/09/2019 | I just bought the organic pillows and have only had two sleeps with them but I cannot remember the last time I slept so well. AMAZING 😊

BODY PILLOW - Luxury Organic Silk Cotton

These Luxury pillows are made with 100% GOTS Certified Organic Cotton fabric and 100% Silk Cotton filling and are medium soft to medium firm to sleep on depending on how much filling you keep inside the covering. No synthetic fibres, no polyesters, no additives to cause perspiration. Enjoy a comfortable and supportive night's sleep with our body pillow. This full length pillow will bring an extra layer of cushioning to your bed, and can be used to support a variety of sleeping positions. It is also ideal for side sleepers, maternity sleeping, creating a barrier between the sleeper and a wall, or simply relaxing in bed.

Our pillows are made with 100% natural fibres and after time they will compress down, so a quick daily fluffing is recommended (as you would with a feather / down pillow). Like in nature, natural cotton is inconsistent. Sometimes the pillows can be 'lofty' to start with, and sometimes a little more settled. Nature cannot be shaped into a consistent form unless man-made fibres and chemicals are added, which Organature WILL NOT do. Pillows stuffed with silk-cotton act most like standard pillows. They have loft, can be fluffed, do not need to be punched in the middle of the night and retain their shape well.

ABOUT THE OUTER COVERING: This pillow is made with natural organic cotton outer (un-dyed, unbleached, un-treated fabric), with a zippered end. The zip is to allow you to take out filling to obtain the optimum comfort level and then allowing you to re-fill if required.

ABOUT THE SILK-COTTON FILLING. "Silk" Cotton is a special strain of cotton. It is 100% Silk Cotton. Silk Cotton is the same as Kapok and comes from the kapok tree. There is no 'silk' in the pillows. The silk-cotton fluff is actually buoyant

and was used in the designs for the first life jackets, that is, until synthetic foams came on the market. It feels similar to the light weight feeling of down, but without the allergies and the loss of loft that go with feathers. "Absolutely Purely Organic."

APPROXIMATE SIZE: 48 x 150 cm approx. 1500 gram of filling.

WOULD YOU LIKE THE BODY PILLOW PILLOWCASE AS WELL? [HERE IT IS ...](#)

WOULD YOU LIKE A PILLOW PROTECTOR TOO? [HERE IT IS ...](#)

[BOOMERANG PILLOW – Luxury Organic Silk Cotton \(soft\)](#)

Our Luxury Boomerang pillows are made with 100% Certified Organic Cotton fabric and 100% Silk Cotton filling and are medium soft to medium firm to sleep on depending on how much filling you keep inside the covering. No synthetic fibres, no polyesters, no additives to cause perspiration. Ideal for neck support while reading, shoulder support when lying on your side and for nursing mothers to breastfeed in a more comfortable way, without tiring out arms. Some filling can be removed to make it even easier to bend and scrunch to adjust to the desired position.

Because our pillows are made with 100% natural fibres, after time they will compress down, so a quick daily fluffing is recommended (as you would with a feather / down pillow). Like in nature, natural cotton is inconsistent. Sometimes the pillows can be 'lofty' to start with, and sometimes a little more settled. Nature cannot be shaped into a consistent form unless man-made fibres and chemicals are added, which Organature WILL NOT do. Pillows stuffed with silk-cotton act most like standard pillows. Silk cotton is very soft and has a luster like silk; hence it is called Silk cotton, there is no 'silk' content, there is no 'cotton' content, only Cotton Silk.

Do you like comfort, practicality and versatility? Here are a couple ideas to make them even more useful.

- Neck support while reading.
- Sleep on your side on one arm of the pillow and wrap your leg over the other arm for ultimate comfort. (Your mate will thank you!)
- Use one for your back and one lying down on your knees as a cushioned stand for a book, ipad, breakfast tray or newspaper.

- Prop up a baby (or a pet) in the nook of the boomerang pillow and take some cute photos.
- Give several to the kids to make a soft cubby-house out of. And the bigger kids like them to sleep on as well.
- Great for feeding babies too. (I breast-fed two sets of twins and couldn't think of anything better).
- Wrap around behind you and use as lower to mid- back support while sitting on a couch. Makes it easier to hold an upright posture.
- Use to elevate your knees when lying down to increase circulation to the brain.

The boomerang pillow is perfect for people who prefer to sleep on their sides instead of their back. The design helps ease pain and stiffness in the neck or shoulders that often results from sleeping on your side without proper support. The boomerang shape is also suitable for those with a larger, broader frame that have difficulty getting comfortable when trying to get to sleep. Made from Luxury Organic Silk Cotton, you can happily stop worrying about those restless nights.

Not only is the shape delightful, but the case, cover, filling and pillow protector is: "Absolutely Purely Organic."

BOOMERANG PILLOWCASE - Organic Poplin - natural or white

Boomerang Pillowcase - made from 100% GOTS Certified Organic Poplin Cotton. Designed to fit our Organature Boomerang Pillows (standard boomerang size). Made in Australia in our Organature Sewing Room.

Available in Natural and White ONLY. Natural colour is NOT bleached or dyed in anyway.

Want the Boomerang Pillow Insert as well? [Here it is ...](#)
Want a Boomerang Pillow Protector too? [Here it is ...](#)

PILLOW BED COVER - Organic Cotton - Raw Cosy Flannel - natural

Childrens Pillow Beds for use in your home, simple to fold up and store away, super comfortable and easy to transport. Made with our 100% GOTS Certified Organic Raw Cosy Flannel (soft and sturdy winter weight). The design includes 4 pockets to slide our standard or hi-loft pillows in to make a portable, fold-able bed, great for any space.

Being able to fold the bed into any formation you would like allows for extra height at the head end or a double layer of pillow thickness if you want to elevate the knees. With 4 pillows inserted in the 4 separate pillowcase like sections, children can lie flat, or recline by folding one

pillow under, at one end. Great for watching their favourite show. The perfect size for kids of any age.

"Yep I want one too! It'll be perfect to use on my outdoor recliner." - Elizabeth (actual age not disclosed)

- Approximate dimensions: 190 cm length x 80 cm width

These Pillow Beds are available in Raw Cosy Organic Flannel: Natural (un-bleached/un-dyed). Natural, certified organic and unbleached is the ideal choice for people wanting to live as allergy-free and sensitivity-free as possible.

PLEASE NOTE: [Pillows](#) are sold separately, and we also recommend using our organic [pillow protectors](#) to protect the pillows from potential spills.

Pillow Protectors - Certified Organic Flannel - various sizes

Pillow Protector - One Only. Our pillow protectors are made from 100% GOTS Certified Organic Flannel. A lightly brushed fabric which minimizes the penetration of dust-mites and helps prolong the life of your Organic Cotton Pillow.

It is very similar to Flannelette but is better quality and not as fluffy. In this organic fabric only the long cotton fibres are used and it does not fluff like conventional flannelette, therefore eliminating the annoying short fibres that tickle the nose and eyes, and that can cause allergies. Flannelette produced in Asia frequently contains formaldehyde. Our Organic Flannel has been woven with a yarn which takes longer to spin and any short

fibres are removed. Final brushing produces the superior 'Suede' finish. The Pillow protector is fully washable and made like a pillow case for easy removal.

APPROXIMATE SIZES:

- To fit Half Fill, Standard and Hi Loft Pillows approx. 45 x 70 cm.
- To fit Europe Pillow approx. 60 x 60 cm.
- To fit Cot Pillow approx. 37 x 58 cm.
- To fit Queen Silk Pillow approx. 53 x 73 cm.
- To fit Body Pillow approx. 50 x 150 cm.
- To fit Cushion Insert approx. 40 x 40 cm. These could be cushion covers or protectors.
- To fit Boomerang Pillow approx. 40 cm width (at bend of protector) and 110 cm length (across longest part of protector).

We have the above range of sizes to fit the whole range of our pillows.

- [PILLOW – Certified Organic Cotton – various-sizes \(firm\)](#)

- [PILLOW – Luxury Silk Cotton – various sizes \(soft\) HIGHLY RECOMMENDED](#)

- Cot/Travel 38 x 60 cm

REVIEW: Maree | ★★★★★ | 24/09/2014 | I received my order and have just put it on the bed. The sheet and pillowcases look and feel amazing. Thank you so much. I am hoping to eventually replace all of our bed linen with your beautiful products.

REVIEW: Fiona | ★★★★★ | 20/08/2013 | Lovely and soft to sleep on with no nasty smells. Didn't need to wash them before use. Thank you for creating beautiful organic linen.

Pillowcases - Organic Raw Cosy Flannel - VARIOUS SIZES

Raw Cosy Flannel Assorted Pillowcases made in Australia from 100% GOTS certified organic fabric. This fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our Cosy flannel fabrics are a brushed cotton – not a flannelette – and they are about 280 – 285 gsm.

This fabric is raw, which means it is un-dyed and has natural flecks in the colouration. Perfect for people wanting the most allergy-free, sensitive-free fabric you can get in Australia. The pillowcase is sewn with a turn through and bound open edge. To allow for shrinkage, these pillowcases have been made slightly larger. Available in Natural ONLY.

ALSO AVAILABLE IN THIS LUXURY COSY FLANNEL RANGE:

- Sheet Sets - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel
- Fitted Sheets - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Flat Sheets - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Quilt Covers - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel
- Pillowcases - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Cushion Cover - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel

Available as a single Standard, a Standard Pair and Europe Pair. Available in several sizes. Measurements below in approximate centimeters.

- Standard 48 x 73 cm.
- Europe 61 x 61 cm.
- Cushion Cover 40 x 40 cm.
- Cot/Travel 38 x 60 cm
- Queen 51 x 76 cm

Pillowcases - Natural Organic Cotton Calico - all sizes

Our GOTS Certified Organic Cotton Calico is a medium weight fabric suitable for use all year round. The perfect choice for extremely chemically sensitive people. Made to Order – Organic Cotton Calico Pillowcases, made from 100% GOTS certified organic cotton. Made in an Organature Sewing Room, with Certified Organic Cotton 'loom state', non-washed or treated Calico.

Our Calico is in 'Loom State' – not washed or treated with any chemicals. It is quite stiff and wrinkled fabric before being washed, however it has no chemicals used throughout the manufacturing stages, therefore it is ideal for people who are very chemical sensitive and for those who want a

100% Natural fabric. (Please note: it does contain some natural cotton oil and natural starch to assist in the weaving process, which is permitted under GOTS and is essential to weave the fabric).

USEFUL INFORMATION ABOUT CALICO: Sometimes people think that if they buy calico somewhere, it is always pure calico and means it has no treatments. They are wrong. Most, if not all, calico sold in shops and by fabric wholesalers are treated with formaldehyde. Naturally our 100% Organic Cotton Calico produced to GOTS certification standards is not treated in any way. The only additive in Organic Calico is the Organic Corn Starch which is needed to stiffen the yarn to be able to weave the fabric. It is the best stiffener available, so good, in fact you can eat it.

CARE INSTRUCTIONS: After a several washes the fabric will soften and reduce in wrinkles. We recommended the first wash at between 40-50 degrees to assist in this softening and an initial shrinking process. Do Not use commercial softening products – Vinegar and Soda Crystals are a good natural substitute to assist in this process instead. Please Note: Approximately 10 – 15% shrinkage will occur with all 'loom state' Calico products - However, we cannot guarantee the amount exactly and our pillow cases are cut slightly larger to cater for this.

SIZES AVAILABLE: Standard pair, Standard one only, Europe pair, Europe one only, Cot/Travel one only.

COLOURS: Available in Natural only.

Cushion Inserts - 100% GOTS Certified Organic Cotton - various sizes

All cushion inserts are made with 100% GOTS Certified Organic Cotton fabric and filling.

AVAILABLE SIZES:

- 40 x 40 cm.
- 60 x 60 cm. (These are the same as our Europe Pillows)

REVIEW: Eva | ★★★★★ | 23/02/2015 | Nice affordable pillows for our couch! They are soft and comfortable. I love that we can get them certified

organic at such a great price! We got covers too, which are also very soft. I'm sure we will purchase some more soon.

Cushion Covers - Organic Poplin - various colours

Cushion Cover with flap cross over at back. No studs or fastening necessary. Made in Australia from 100% GOTS Certified Organic Cotton Poplin. This Poplin is a lighter weight deluxe fabric, similar to Percale but of a greater quality. Suitable for most climates all year round.

COLOURS: Available in a wide range of fashion colours. Our Natural colour, is NOT treated/bleached/or dyed in any way and is ideal for people wanting to live as allergy-free and sensitivity-free as possible.

AVAILABLE SIZES:

- 40 x 40 cm.
- 60 x 60 cm. These are the same size as Europe Pillowcases.

Cushion Cover - Organic Raw Cosy Flannel - 40 cm x 40 cm

Cushion Cover made from our Raw Cosy GOTS Certified Organic Cotton. This fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette – so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm. Some people may even call it luxury organic flannelette. This fabric is also raw, which means it is un-dyed, un-bleached, un-treated in any way and has natural flecks in the colouration. Natural, certified organic and unbleached is the ideal choice for people wanting to live as allergy-free and sensitivity-free as possible.

SIZE: 40 x 40 cm

ALSO AVAILABLE IN THIS LUXURY COSY FLANNEL RANGE:

- Sheet Sets - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel
- Fitted Sheets - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Flat Sheets - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Quilt Covers - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel
- Pillowcases - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Cushion Cover - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel

Cushion Cover - Organic Cotton Corduroy – various colours

Soft and luxurious, these cushion covers made from 100% Organic Cotton Corduroy are a lovely addition to your bedroom or lounge. Easy to put on and remove through the envelope insert on the back. Made in an Organature Sewing Room with GOTS certified fabric from the EU.

Available in a range of Colours: Natural (no bleach/ no dye), and Herb dyed – Madder Red and Bark Brown.

Available in a range of Sizes: 40 x 40 cm or 60 x 60 cm in size, they are the perfect size for the cover in Organature 100% Cotton Cushion insert or Euro pillow.

- 40 x 40 cm ONE ONLY 100% Certified Organic Cotton Covers made from our soft organic corduroy.
- 60 x 60 cm ONE ONLY 100% Certified Organic Cotton Covers made from our soft organic corduroy.

Please note that the Bark Brown and Madder Red Corduroy are herb dyed, under organic certification these dyes cannot be “set” as the process uses harmful chemicals. As a consequence these dyes will bleed to start with, so we suggest you wash the cover several times with added salt in cold water before using. The colours as you see them on the covers will change when washed; the bark brown (olive) will turn brown and the red will fade to a Madder Red. This is not a fault, it is the nature of such dyes.

Organic Quilts & Quilt Covers

ORGANIC QUILTS, DUVET, DOONA AUSTRALIA: Made from Certified 100% Organic Cotton Fabrics and Filling. We only use Certified Organic. We don't work with anything else.

WINTER AND SUMMER WEIGHTS: Organic Cotton QUILT COVERS are made in our Organature® sewing rooms in a wide range of colours (created with low-impact dyes) to match the sheets, pillowcases and cushion covers. Our Natural colour is NOT treated, bleached or dyed in any way. Please note that colours will vary according to your computer monitor settings. If you would like to touch and see the exact fabric colour samples, we are more than happy to send you our selection in the mail.

ORGANIC FABRICS AND FILLINGS: Our QUILTS / DOONAS are also Made in Australia with luxurious GOTS Certified Organic Satin Poplin and filled with Certified Organic Cotton too. Available in summer weight 240 gsm and winter weight 460 gsm. Highly recommended.

*Please note that under the Health Act, Pillows, Underlays, Quilts, Bed Toppers, Mattresses and Pillow Protectors are NON-REFUNDABLE unless faulty.

ORGANIC QUILTS FULL PRODUCT LIST: <https://organature.com/product-category/bedroom/quilts-quilt-covers/>

Quilt - Summer Weight - Certified Organic Cotton

Quilt in Summer Weight

Our Organic Cotton quilts (also known as Duvet or Doona) are made with pure 100% GOTS Certified Organic Cotton fabric and filling. No synthetic fibres to cause perspiration. Our quilts are light weight, cosy and comfortable. Summer weight, approx 240 grams per m². Also available in [Winter Weight](#), approx 460 grams per m².

Available in these sizes. (Note: Sizes are Approximate only):

- Cot 100 x 130 cm
- Single 140 x 210 cm
- King Single, 160 x 225 cm
- Double 180 x 210 cm
- Queen 210 x 210 cm
- Super Queen 210 x 225 cm
- King 245 x 210 cm
- Super King 275 x 240 cm

Caring For Your Organature Quilt

Any quilt which is made with 100% natural fibres is normally not washable; the fabric would have been preshrunk; the filling would not have been preshrunk. Should you ever see a washable natural fibre filled quilt, it is likely to contain a certain quantity of polyester, or silicone has been applied, without disclosure on the label. Washing should not be necessary if you use a quilt cover, shake and air regularly. Spot cleaning and airing is recommended.

REVIEW: Samantha | ★★★★★ | 02/09/2019 | I have finally got my four organic cotton doonas onto the beds and also the beautiful [organic cotton blankets](#). I have to say THANK YOU – they are perfect and feel amazing. My child that rolls around a lot is sleeping comfortably and they seem to stay on her compared to other bed linen / doonas she has had. Thanks for your patience – totally in love with your product!

REVIEW: Meagan | ★★★★★ | 19/08/2014 | We recently purchased the super-king sized quilt to replace our old doona. The size is perfect for our king-sized bed (no more complaints from my husband about me stealing the doona from him!), and it is warm and soft. I have been very impressed by all my purchases from Organature, and this quilt is no exception. Thank you very much.

REVIEW: Pam | ★★★★★ | 06/05/2013 | I suffer from dust mite allergies & multiple chemical sensitivities. I bought this quilt as it was allergy free & chemical free. The best decision I ever made. The service was excellent & the product unbelievable. When we changed our bed to the king size I purchased again. Very lightweight for the warmer months. You will not be disappointed!

Can I wash my Organature Organic Cotton Quilt or Pillow?

Like ALL cotton products, organic cotton will shrink if washed or tumble dried in temperatures above 40 C. Do not wash or tumble dry above 30 C. Quilts and pillows made with 100% cotton are prone to clump and shrink if they are washed. (Conventional cotton quilts that can be washed will have a portion of polyester and/or chemicals added to make them washable). For this reason, we do not recommend washing.

Any soiling should be removed only with a damp cloth, and bi-carb soda should be used to soak up moisture. Re-apply the bi-carb soda as necessary until the area is mostly dry, and then complete the drying process using a hair dryer, on low setting, not too close to the item and on both sides. Ensure the quilt is fully dried as moisture may allow mould to develop. Hang out to air in sunshine where possible to aid with airing.

If very badly soiled you could wash it gently in cold water by squeezing the affected area, (do not use washing machine action), absorb excess wetting with towels as much as possible and hang on line. May also be put in tumble dryer on low setting, tumble for 5-10 minutes, take out, fluff out and repeat until dry.

Quilt - Winter Weight - Certified Organic Cotton

Quilt in Winter Weight. Our Certified Organic Cotton quilts (also known as Duvet, Comforter or Doona) are made with 100% GOTS certified organic cotton fabric and filling. No synthetic fibres to cause perspiration. Our quilts are light weight, cosy and comfortable. Winter weight, approx. 460 grams per m². Also available in [Summer weight](#), approx. 240 grams per m². Winter quilt is not suitable for babies, but we highly recommend the summer weight instead. If extra cover is needed our [lightweight organic fleece blanket](#) is ideal.

APPROXIMATE SIZES IN CM:

- Single 140 x 210 cm
- King Single, 160 x 225 cm
- Double 180 x 210 cm
- Queen 210 x 210 cm
- Super Queen 210 x 225 cm
- King 245 x 210 cm
- Super King 275 x 240 cm

HOW TO KNOW IF A QUILT OR BLANKET IS BEST FOR YOU

- An Organic Cotton [Summer Quilt](#) with a light organic blanket will probably be ideal most of the year.
- On those cold nights use both; during mild nights use a Quilt.
- Lightweight Organic Fleece Blankets are perfect for those nights when a quilt is too much and a sheet is not enough.
- A [Winter Quilt](#) may be required by those who really feel the cold.

Quilt Cover and Pillowcase Set - Organic Cotton Canvas - Botanica Print

Quilt Cover and Pillow Case Sets Made from 100% GOTS Certified Organic Cotton. 'Botanic' floral organic fabric printed with low impact dyes. Opening at foot-end with metal press-studs. Sewn in our Organature sewing room. Bold and beautiful with a colour palette to mix and match perfectly with our popular [plain dyed Organic Poplin bed linen](#) colour range. Made from Certified Organic Lightweight Canvas our Quilt Covers are backed with plain soft white organic poplin and your choice of white binding for a crisp, cool look, OR bound with Burgundy if you are after warmer ambience. Set includes Quilt Cover and Pillowcase(s) to match.

Single and King Single Sets include One Cuffed Pillowcase only. All other sizes include a Pair of Cuffed Pillowcases in the matching fabric.

MEASUREMENTS IN APPROXIMATE CENTIMETERS:

- Single - 140 x 210 cm
- King Single - 160 x 225 cm
- Double – 180 x 210 cm
- Queen – 210 x 210 cm
- Super Queen - 210 x 225 cm
- Super King - 275 x 240 cm

Fabric for Botanica is a LIGHTWEIGHT canvas Oxford weave 190 GSM, with the starch washed out. Not to be confused with HEAVY canvas as used in sails and blinds. ORGANIC BOTANICA PRINT MATCHING SETS:

[Botanica Quilt Cover and Pillowcase Set](#) | [Botanica Home and Bedroom Accessories](#)

Quilt Cover - Organic Raw Cosy Flannel - ALL SIZES

Raw Cosy Flannel Quilt Cover made in Australia from 100% GOTS certified organic fabric and bound with Organic Poplin. This fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette – so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm. This fabric is also raw, which means it is un-dyed, unbleached, un-treated in any way and has natural flecks in the colouration. Natural, certified organic and unbleached is the perfect choice for people wanting to live as allergy-free and sensitivity-free as possible.

ALSO AVAILABLE IN THIS LUXURY COSY FLANNEL RANGE:

- Sheet Sets - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel
- Fitted Sheets - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Flat Sheets - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Quilt Covers - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel
- Pillowcases - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Cushion Cover - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel

PLEASE NOTE: Cosy fabric is only 230 cm wide; full width is used in the centre, therefore side joins are added to achieve the full sheet quilt. The special joins are very small and fall mainly outside sleeping area. DELIVERY TIME: These products are made upon request and have a 2 -3 week waiting time.

Available in our full range of sizes. Approximate measurements: Cot – 100 x 130 cm. Single - 140 x 210 cm. Double – 180 x 210 cm. Queen – 210 x 225 cm. King – 245 x 210 cm. King Single – 160 x 225 cm. Super Queen – 210 x 225 cm. Super King- 275 x 240 cm.

Quilt Cover - Organic Poplin – various colours – all sizes

One Quilt Cover Only. Made in Australia from 100% GOTS Certified Organic Cotton Poplin. Opening at foot end with metal press-studs.

PLEASE NOTE: These quilt covers are deliberately made with overlocking on the outside that looks like piping (see attached images). If this isn't to your liking please mention it in the additional notes section of your order and we will make one with the overlocking on the inside - but please be aware, this could take up to 4 weeks to make, complete and deliver. If it's good for you the way it is, just place your order as normal. (*Note - some quilt covers have 2 studs towards either corner of the

cover. These are for decoration only and ends are partly sewn to avoid quilt slip.) This Poplin is a lighter weight deluxe fabric, similar to Percale but of a greater quality. Suitable for most climates all year round.

COLOURS: Available in a wide range of fashion colours. Our Natural colour, is NOT treated/bleached/or dyed in any way and is ideal for people wanting to live as allergy-free and sensitivity-free as possible

MEASUREMENTS IN APPROX CM: Cot - 100 x 130 cm. Single -140 x 210 cm. Double - 180 x 210 cm. Queen - 210 x 210 cm. King - 245 x 210 cm. King Single - 160 x 225 cm. Super Queen - 210 x 225 cm. Super King - 275 x 240 cm.

REVIEW: Maree | ★★★★★ | 24/09/2014 | I received my order and have just put it on the bed. The sheet and pillowcases look and feel amazing. Thank you so much. I am hoping to eventually replace all of our bed linen with your beautiful products.

REVIEW: Fiona | ★★★★★ | 20/08/2013 | Lovely and soft to sleep on with no nasty smells. Didn't need to wash them before use. Thank you for creating beautiful organic linen.

Organic Sheets & Sheet Sets

ORGANIC COTTON SHEETS AUSTRALIA: ORGANATURE ® are manufacturers of superior quality Bedlinen, made in Australia from GOTS Certified 100% Organic Cotton Fabric. Our Organic Cotton Bedlinen is cut, sewn, folded and wrapped in our own hygienic sewing room. Superior soft fabric without chemicals, allows your skin to breath, providing you with a healthy sleep. Our Organic Cotton Fitted Sheets have elastic around the edges and are made to a generous size to suit Pillow Top and deep mattresses. Together these features eliminate the need to refit the sheet in the middle of the night. Our Organic Cotton Flat Sheets are a very generous size, in both width and length. No more fighting for the bedding or losing your covering during the night. With our huge range of colours, you are able to mix and match!

THE NATURAL ORGANIC COLOURS: Organic Sheets come in a wide range of colours (created with low-impact dyes acceptable by GOTS Organic Certification) to match the pillowcases quilt covers and cushion covers. Our Natural colour is NOT treated, bleached or dyed in any way for those who are extra careful about what they put next to their skin. Natural, certified organic and unbleached is the ideal choice for people wanting to live as allergy-free and sensitivity-free as possible. Please note that colours will vary according to your computer monitor settings. If you would like to touch and see the exact fabric colour samples, we are more than happy to send you our selection in the mail.

ORGANIC SHEETS FULL PRODUCT LIST: <https://organature.com/product-category/bedroom/sheets-sheet-sets/>

Fitted Sheets - Cream Organic Cosy Flannel - VARIOUS SIZES

One Cream Cosy Flannel Fitted Sheet made in Australia from 100% GOTS certified organic fabric. This beautiful organic fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette – so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm. Some people may even call it luxury organic flannelette.

To allow for shrinkage these fitted sheets have been made slightly larger. Cream Cosy is a very light cream non-harmful dyed fabric.

PLEASE NOTE: Cosy fabric is not woven in wide widths and therefore to produce the various bedlinen products side panels have been added to the fabric full width centre panels. The special joins are very small and fall mainly outside the sleeping area. All Flat Sheets and Fitted Sheet in the sizes of Queen, King and Super King have joins that run either side of the sheet. These joins are not under where the body generally lays. This does not apply to baby bedding sizes, which are made as normal without these joins.

Available in our full range of sizes.

Approximate Measurements: Single Fitted Sheet – 91 x 190 x 35 wall. Double Fitted Sheet – 137 x 190 x 35 wall. Queen Fitted Sheet – 152 x 203 x 39 wall. King Fitted Sheet – 183 x 203 x 39 wall. King Single Fitted Sheet – 107 x 203 x 35 wall. Single Long Fitted Sheet – 91 x 203 x 35 wall. Cot Fitted Sheet – 69 x 130 x 20 wall, and Cot Fitted Sheet 77 x 132 x 20 wall. Cradle Fitted Sheet – 48 x 94 x 10 wall.

(*Note that the Fitted Sheet is elasticated around the edges to fit comfortably on all mattress depths. Cradle and Bassinet sizes are elasticated at ends only to avoid mattress rising.)

Flat Sheet - Cream Organic Cosy Flannel - VARIOUS SIZES

One Cream Cosy Flannel Flat Sheet made in Australia from 100% GOTS certified organic fabric. This beautiful organic fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette – so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm. Some people may even call it luxury organic flannelette. To allow for shrinkage, the fitted sheet, flat sheet and pillowcases have been made slightly larger. Cream Cosy is a very light cream non-harmful dyed fabric.

ALSO AVAILABLE IN THIS LUXURY COSY FLANNEL RANGE:

- Sheet Sets – [Raw Cosy Flannel \(natural\)](#) – Cream Cosy Flannel
- Fitted Sheets – [Raw Cosy Flannel \(natural\)](#) – [Cream Cosy Flannel](#)
- Flat Sheets – [Raw Cosy Flannel \(natural\)](#) – [Cream Cosy Flannel](#)
- Quilt Covers – [Raw Cosy Flannel \(natural\)](#) – Cream Cosy Flannel
- Pillowcases – [Raw Cosy Flannel \(natural\)](#) – [Cream Cosy Flannel](#)
- Cushion Cover – [Raw Cosy Flannel \(natural\)](#) – Cream Cosy Flannel

PLEASE NOTE: Cosy fabric is 230 cm wide; full width is used in the centre, therefore side joins are added to achieve the full sheet size. The special joins are very small and fall mainly outside sleeping area. All Flat Sheets and Fitted Sheet in the sizes of Queen, King and Super King have joins that run either side of sheet. The centre panel is approx. 150 cms. These joins are not under where the body generally lays. This does not apply to baby bedding sizes, which are made without these joins.

Available in our full range of sizes. Approximate Measurements: Single – Cuffed flat sheet – 180 x 265 cm. Double – Cuffed flat sheet – 220 x 265 cm. Queen – Cuffed flat sheet – 250 x 285 cm. King – Cuffed flat sheet – 270 x 285 cm. King Single – Cuffed flat sheet – 200 x 285 cm. Single Long – Cuffed flat sheet – 180 x 285 cm. The length of the sheets can vary between 270 – 285 cm depending upon the width of the fabric roll.

Flat Sheets - Organic Raw Cosy Flannel - ALL SIZES

One Raw Cosy Flannel Flat Sheet made in Australia from 100% GOTS certified organic fabric. This fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette – so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm. Some people may even call it luxury organic flannelette. This fabric is also raw, which means it is un-dyed, un-bleached, un-treated in any way and has natural flecks in the colouration. Natural, certified organic and unbleached is the ideal choice for people wanting to live as allergy-free and sensitivity-free as possible.

ALSO AVAILABLE IN THIS LUXURY COSY FLANNEL RANGE:

- Sheet Sets - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel
- Fitted Sheets - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Flat Sheets - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Quilt Covers - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel
- Pillowcases - [Raw Cosy Flannel \(natural\)](#) - [Cream Cosy Flannel](#)
- Cushion Cover - [Raw Cosy Flannel \(natural\)](#) - Cream Cosy Flannel

PLEASE NOTE: Cosy fabric is 230 cm wide; full width is used in the centre, therefore side joins are added to achieve the full sheet size. The special joins are very small and fall mainly outside sleeping area. All Flat and Fitted Sheet in the sizes of Queen, King and Super King have joins that run either side of sheet. All smaller sizes are cut in one piece as normal.

Available in our full range of sizes. Approximate Measurements: Single – Cuffed flat sheet – 180 x 265 cm. Double – Cuffed flat sheet – 220 x 265 cm. Queen – Cuffed flat sheet – 250 x 285 cm. King – Cuffed flat sheet – 270 x 285 cm. King Single – Cuffed flat sheet – 200 x 285 cm. Single Long – Cuffed flat sheet – 180 x 285 cm. Bassinet - Cuffed flat sheet – 75 x 83 cm (we suggest if your bassinet is larger than this size, to go up a size to a Cradle Sheet).

Fitted Sheets - Organic Raw Cosy Flannel - ALL SIZES

Our Raw Cosy Flannel Fitted Sheet is made in Australia from 100% GOTS certified organic fabric. This fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette – so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm. Some people may even call it luxury organic flannelette. This fabric is also raw, which means it is un-dyed, un-bleached, un-treated in any way and has natural flecks in the colouration. Natural, certified organic and unbleached is the ideal choice for people wanting to live as allergy-free and sensitivity-free as possible.

Sheet Sets - Organic Raw Cosy Flannel - ALL SIZES

Raw Cosy Flannel Sheet Sets. Includes Flat, Fitted and Pillowcases made in Australia from 100% GOTS certified organic fabric. This fabric is super soft and fluffy. Perfect for warming up on those chilly winter nights. Our cosy flannel fabrics are a brushed organic cotton – not a flannelette - so there are no itchy or sneezy fibres to irritate anyone, and they are about 280 – 285 gsm. Some people may even call it luxury organic flannelette. This fabric is also raw, which means it is un-dyed, un-bleached, un-treated in any way and has natural flecks in the colouration. Natural, certified organic and unbleached is the perfect choice for people wanting to live as allergy-free and sensitivity-free as possible.

(Single, Single Long and King Single Sizes come with one only pillowcase, all the other sizes come with a pair.)

To allow for shrinkage, the fitted sheet, flat sheet and pillowcases have been made slightly larger. Due to the fabric being organic, inconsistency can occur in the rate of shrinkage. Some fitted sheets MAY still fit a little loosely at one end, which can be easily tucked under.

PLEASE NOTE: Cosy fabric is 230 cm wide; full width is used in the centre, therefore side joins are added to achieve the full sheet size. The special joins are very small and fall mainly outside sleeping area. All Flat Sheets, and all sizes but Single in the Fitted Sheet have joins that run either side of sheet. The centre panel is approx. 150 cms. These joins are not under where the body generally lays. This does not apply to baby bedding sizes, which are made without these joins.

Available in our full range of sizes. Approximate Measurements below in cm:

- Single Fitted Sheet – 91 x 190 x 35 cm wall Cuffed flat sheet – 180 x 265 cm
- Double Fitted Sheet – 137 x 190 x 35 cm wall Cuffed flat sheet – 220 x 265 cm
- Queen Fitted Sheet – 152 x 203 x 39 cm wall Cuffed flat sheet – 250 x 285 cm
- King Fitted Sheet – 183 x 203 x 39 cm wall Cuffed flat sheet – 270 x 285 cm
- King Single Fitted Sheet – 107 x 203 x 35 cm wall Cuffed flat sheet – 200 x 285 cm
- Single Long Fitted Sheet – 91 x 203 x 35 cm wall Cuffed flat sheet – 180 x 285 cm
- Cot Fitted Sheet – 77 x 132 x 20 cm wall Cuffed flat sheet – 120 x 160 cm
- Cradle Fitted Sheet – 48 x 94 x 10 cm wall Cuffed flat sheet – 94 x 109 cm
- Bassinet Fitted Sheet – 42 x 76 x 8 cm wall Cuffed flat sheet – 75 x 83 cm (we suggest if your bassinet is larger than this size, to go up a size to a Cradle Sheet).

Please Note: The length of the sheets can vary between 270 – 285 cm depending upon the width of the fabric roll. Cot and cradle sizes are available as separates - fitted and quilt covers only. The Fitted Sheet is elasticated around the edges to fit comfortably on all mattress depths. Cradle and Bassinet sizes are elasticated at ends only to avoid mattress rising.

Fitted Sheets - Organic Poplin - various colours - all sizes

One Only Fitted Sheet made in Australia from our 100% GOTS Certified Organic Cotton Poplin Fabric. This Poplin is a lighter weight deluxe fabric, similar to Percale but of a greater quality. Suitable for most climates all year round and available in a range of colours and styles that form part of our most popular plain dyed Organic Cotton Poplin Range.

(*Note that the Fitted Sheet is elasticated around the edges, to fit comfortably on all mattress depths. Cradle and Bassinet sizes are elasticated at ends only to avoid mattress rising.)

Flat Sheet - Organic Poplin - various colours - all sizes

One Only Cuffed Flat Sheet. Made in Australia from 100% GOTS Certified Organic Cotton Poplin. This Poplin is a lighter weight deluxe fabric, similar to Percale but of a greater quality. - [Quilt Covers](#)

COLOURS: Available in a wide range of fashion colours created using GOTS Certified low impact dyes. Our Natural colour is NOT treated/bleached/dyed in any way and is ideal for people wanting to live as allergy-free and sensitivity-free as possible.

REVIEW: Raelene | ★★★★★ | 13/01/2017 | Just a quick note to let you know I used your bed sheets for the first time and they were so comfy to sleep in. The fabric is smooth and strong, yet beautifully crisp and light for a warm summer night. Thank you for making these perfect sheets!

REVIEW: Kerrie | ★★★★★ | 19/08/2014 | I bought a sheet set from you a couple of weeks ago and are extremely happy with the feel, sizing and quality of your sheets. Since using your sheets I have found that I am sleeping better

without waking due to overheating. I look forward to making further purchases of Australian Made and Chemical Free products from you in the future.

SIZES AND MEASUREMENTS: Measurements below in approximate centimeters.

- Super King Fitted Sheet - 203 x 203 x 39 cm wall Cuffed flat sheet - 310 x 280 cm
- Cot Fitted Sheet - 77 x 132 x 20 cm wall Cuffed flat sheet - 120 x 160 cm
- Cradle Fitted Sheet - 48 x 94 x 10 cm wall Cuffed flat sheet - 94 x 109 cm
- Bassinet Fitted Sheet - 38 x 76 x 8 cm wall Cuffed flat sheet - 94 x 109 cm

**Note that the Fitted Sheet is elasticated around the edges, to fit comfortably on all mattress depths. Cradle and Bassinet sizes are elasticated at ends only to avoid mattress rising. The length of the sheets can vary between 270 – 285 cm depending upon the width of the fabric roll.

Timber Beds, Bunks, Trundles

100% ORGANIC BEDROOM FURNITURE AUSTRALIA: Our beautiful Timber BEDS, BUNKS, TRUNDLES, SOFA'S, COTS and BED SIDE TABLES are made specially for us in South Gippsland, using Victorian Ash from managed plantations. Purchased from a local mill to reduce carbon footprint. NO Harmful Finishes, NO MDF, NO Chipboard, NO Chemical Paint, NO Fumigation and NO Toxic Glues are used during any part of the manufacturing process.

ORGANIC TIMBER FINISHES: Choose raw and sanded, or with natural plant and mineral based oil in several colours. Minimal special glue used in joints, dries rock hard between timbers, no out-gassing. Decorative bolts included, special key supplied and components are numbered for ease of assembly. Slats are NOT oiled or painted.

ORGANIC BED BASES: Suitable for futons and innerspring mattresses. Supplied as three panels, providing a stable base. Please Note: platform height is from floor to top of platform. Clearance under can vary with frame timbers used. Bed Bases are supplied flat packed. Our beds are not made for mattresses to sit inside a lip, so when constructing ensure the side frames of the bed are used with the small space facing up towards the ceiling.

CARING FOR YOUR BED: Timber contracts and expands during different atmospheric conditions and as result sometimes squeaking may occur. If this happens, we recommend a very small amount of soap or Vaseline between the frame and slats.

AUSTRALIA-WIDE DELIVERY: All our beds, mattresses, futons, bed bases and toppers are professionally delivered right throughout Australia by a specialist courier service. These items are carefully packaged and sent from our hygienic factory in Victoria and freight is charged according to your postcode.

IMPORTANT INFORMATION ABOUT TIMBER FURNITURE IN AUSTRALIA: Did you know that most conventional wooden furniture is made using toxic glues and finishes? Imported timber must be fumigated before it can enter the country. Almost all timber furniture, cots, cradles, chests, bunks and beds sold in Australia ARE imported.

All Organature® Bed Linen and Hardwood Furniture is chemical-free, toxin-free, additive-free and proudly MADE IN AUSTRALIA where we can guarantee the purity of the manufacturing process from start to finish ... so we can confidently call it 100% Organic. Please read [Why Our Furniture Is A Healthier Option](#) to find out more.

BUNK BEDS - With optional mattress / futon bundle AUSTRALIAN-MADE

We are now making bunk beds in single, king single and double - AUSTRALIAN MADE 100% Organic.

MADE TO ORDER in our craftsman workshop in South Gippsland. using Australian hardwood. 100% Australian hardwood bunk, NO MDF, No Chipboard, No toxic glues. No chemical paints or finishes. Definitely NO fumigation.

Suitable for 2 x innerspring or futon mattresses.

DIFFERENT POSITIONS FOR THE LADDER: The ladder can be placed on the right or left hand side of the bed OR right or left hand side of the foot end.

HEIGHT: We are able to custom make that bunks to a specified height as well.

TRUNDLE BED OPTION: A trundle bed can be ordered to fit underneath. See our [Montrose Trundle](#) for more details.

ORGANIC FINISHES: Raw and Sanded (No Oil Finish) OR Plant Based Oiled in Clear, Walnut, Dark Walnut, Rosewood and Smoked Oak. We source our oils from Livos who have a range of other colours, you may choose to purchase raw and sanded and apply the oils yourself, here is a link to the Livos website: [Livos](#). Additional price for any Oil finishes.

GENERAL BUNK SAFETY: There should be at least 2 metres clearance between the bunk bed and ceiling fans and lights. If your bunk beds cannot be flush up against the bedroom wall, then allow a clear space greater than 230 mm right around the bed. Keep the floor area around the bunk free from hard toys or sharp objects, in case of a trip or fall. A small light left on, can help children safely out of top bunk in the night.

BUNKS SIZES AVAILABLE:

- [BUNK BEDS – Single with optional mattress / futon bundle AUSTRALIAN](#)
- [BUNK BEDS – King Single with optional mattress / futon bundle AUSTRALIAN](#)
- [BUNK BEDS – Double with optional mattress / futon bundle AUSTRALIAN](#)

AUSTRALIA-WIDE DELIVERY: All our beds, mattresses, futons, bed bases and toppers are professionally delivered right throughout Australia by a specialist courier service. These items are carefully packaged and sent from our hygienic factory in Victoria and freight is charged according to your postcode. This cost is not included in your online order, and we will contact you to confirm the delivery charge. If you select 'Pick up from store' – this will still incur a \$50 fee for transport from our craftsman factory to our shop in Newhaven. Feel free to [email](#) us to get a quote for delivery before placing your order.

DELIVERY TIME: Please feel free to place your orders, however because each item is individually handcrafted, production time on most timber products is approx. 4 weeks.

REVIEW: Andrew |  | 1/03/2019. Great news, the bunks have arrived! I have now fully assembled them, which was no trouble at all. The quality of the wood and workmanship is first class - we are very glad we settled on this bunk after nearly getting some second hand junk.

SPECIAL BUNDLE DEAL

If a mattress or futon is purchased with the bunk, we offer 10% off the list price of the extra items. This special deal applies to one or two mattresses, and Innersprings or Futon combinations **THIS DEAL IS ONLY AVAILABLE IF PURCHASED TOGETHER WITH YOUR NEW BUNK.**

Hardwood Bed Base – Slat Panels – AUSTRALIAN MADE 100% Organic

Hardwood Slat Panels are designed to go onto an existing Bed Base. Perfect to revamp your antique or older style bed that could have ply, chipboard, MDF or varnished slats. Replacing the slats to allow proper breath-ability of the mattress, or repositioning the slats to a higher or lower position can make changing the bed and airing the mattress easier, providing longevity of your mattress and better health in your bedroom.

Supplied in three slat panels for standard bed base sizes, so they sit together well and avoid movement.

Slat panels are better left raw and sanded. No need for additional oils, colour or stains as they generally won't be seen.

OPTIONAL SIDE SUPPORT: As an optional extra, if the new slat panels need to be re-positioned, raised, lowered or supported better on your existing bed base, we include six side support hardwood timber lengths and fixing screws. These make sure the Slat Panels to fit onto your existing base properly, wherever you need them to be.

AVAILABLE BED SIZES:

SINGLE BED: Australian Bed Size to suit 910 × 1900 mm Innerspring Mattress or Futon

SINGLE LONG BED: Australian Bed Size to suit 910 × 2030 mm Innerspring Mattress or Futon

Hardwood Bed Base – Daintree – AUSTRALIAN MADE 100% Organic

Our Daintree bed base is constructed with beautiful Australian Hardwood and is a simple and elegant style for your bedroom. The Daintree bed base in King Single, Queen or King sizes is ideal to use in combination with the Organature [Montrose Trundle](#) which rolls conveniently underneath, in the smaller or same size as the base. Single and Double styles are not suitable for sliding a trundle underneath.

Platform Height: Available in 45 cm or 54 cm depending on if you would like a [Montrose Trundle](#) to match. This standard platform height is

measured from the floor to the the top of the platform. We are also able to do this at the standard 36 cm platform height but this is not suitable for a trundle.

- To fit the Montrose Trundle, with a *'Low Profile' [Organature Innerspring Mattress](#) and some bedding, the Daintree platform height is 45 cm.
- To fit the Montrose Trundle, with a Regular [Organature Innerspring Mattress](#) and some bedding, the Daintree platform height is 54 cm.

*By special request we can make an Organic Cotton *Low Profile innerspring mattress. A low profile mattress is made with the same quality strong springs, the same height, as those used for cot mattresses, but, with more Organic Cotton filling. To find out about more about these low profile mattresses, please [contact us](#).

**Main photo shows Daintree Bed Base being used with our Montrose trundle and a regular Organature Innerspring Mattress.

Suitable for innerspring or futon.

Hardwood Bed Base - Airley - AUSTRALIAN MADE 100% Organic

The Airley bed base is a simple and elegant bed base that is ideally suited to combine with our [Montrose Trundle](#) in the same size. The solid timber bed base frame has three slat panels to avoid movement and provide breathe-ability for the mattress. The Single Trundle will fit under the single, double and king single Airley Base. The Double trundle will fit under the double Airley Base and the King Single trundle will fit under the King Single Base.

STANDARD PLATFORM HEIGHT: 30 or 36 cm - please select in the drop down options your desired bed height.

Other Platform heights available to allow a [Montrose Trundle](#) with a *'Low Profile' Organature Innerspring Mattress and some bedding to be underneath the platform height must be 45 cm.

OR for a [Montrose Trundle](#) with a regular Organature Innerspring Mattress the Airley Base Platform Height must be 54 cm. Please select in the drop down options your desired bed height.

*By special request we can make an Organic Cotton *Low Profile innerspring mattress. A low profile mattress is made with the same quality strong springs, the same height, as those used for cot mattresses, but, with more Organic Cotton filling. To find out about more about these low profile mattresses, please [contact us](#).

AVAILABLE BED SIZES: Single, King Single and Double Bed options only.

SINGLE BED: Australian Bed Size to suit 910 × 1900 mm Innerspring Mattress or Futon

KING SINGLE BED: Australian Bed Size to suit 1070 × 2030 mm Innerspring Mattress or Futon

DOUBLE BED: Australian Bed Size to suit 1370 × 1900 mm Innerspring Mattress or Futon

For a similar style in Queen, King and Super King we recommend our [Barossa Hardwood Bed Base](#).

Suitable for innerspring or futon.

Hardwood Trundle platform style – Montrose – AUSTRALIAN MADE 100% Organic

This Montrose Trundle is suitable for an Innerspring or Futon Mattress to be placed on top. The platform base allows making the bed a breeze. It is designed to slide under our [Kingston](#), [Daintree](#), [Airley](#) or [Hawthorn](#) beds only. The bed base it is to go under needs to have at least a 35 cm clearance. Two of the 4 castors have locks to secure the trundle in place. Suitable for Children.

Frame of 70 x 35 mm with three slat panels to avoid movement.

MADE TO ORDER in Organatures' workshop using Australian hardwood. Using timber without chemical fumigation. Bed Bases are supplied flat packed. Bolts and keys supplied for easy assembly. Minimal glue used, dries rock hard so NO out-gassing. Suitable for innerspring or futon.

AVAILABLE BED SIZES: Available in Single, King Single and Double ONLY

SINGLE BED: Australian Bed Size to suit 910 x 1900 mm Innerspring Mattress or Futon

KING SINGLE BED: Australian Bed Size to suit 1070 x 2030 mm Innerspring Mattress or Futon

DOUBLE BED: Australian Bed Size to suit 1370 x 1900 mm Innerspring Mattress or Futon

ORGANIC FINISHES: Choose raw and sanded, or with natural plant and mineral based oil. We source our oils from Livos who have a range of other colours, you may choose to purchase raw and sanded and apply the oils yourself.

ASSEMBLY: Our beds are not made for mattresses to sit inside a lip, so when constructing ensure the side frames of the bed are used with the small space facing up towards the ceiling. For assembly instructions please refer to: [Bed Assembly Instructions Barossa Daylesford Mansfield Daintree Hawthorn Kingston Apollo Airley Windsor and Trundles](#).

Hardwood Bed Base – Kingston – AUSTRALIAN MADE 100% Organic

This Beautiful timber bed base has a solid slatted timber 57 cm high ladder style head board and recessed legs to avoid stubbing toes. The Kingston is a mix of [Hawthorn](#) and [Barossa](#) bed bases. It has the 57 cm Hawthorn Head board on which we have added a foot end.

TRUNDLE BED CAPABILITIES: This base is suitable for our [Montrose Trundle](#) to fit under.

For a Single, King Single or Double Bed base made with the 90 x 32 mm frame: To fit the Montrose trundle, our regular innerspring mattress together with bedding under the base, the platform height must be 52 cm. OPTION: By using a *Low Profile innerspring mattress together with bedding under the base, the platform height must be 42 cm.

For a Queen and King base we use 140 x 32 mm frame: To fit the [Montrose Trundle](#), our regular innerspring mattress together with bedding under the base, the platform height must be 57 cm. OPTION: By using a *Low Profile innerspring mattress together with bedding under the base, the platform height must be 47 cm.

*By special request we can make an Organic Cotton *Low Profile innerspring mattress. A low profile mattress is made with the same quality strong springs, the same height, as those used for cot mattresses, but, with more Organic Cotton filling. To find out about more about these low profile mattresses, please [contact us](#).

LEG POSITIONS: With the 'Kingston' base 90 x 32 mm legs are positioned on the outside of the frame to allow same size, or smaller, trundle to fit between legs. For example. Single trundle under S, KS or D or S under KS or D.

Also available as ['Airley' Bed Base](#), which is the Kingston without head or foot-ends. Please [Contact Us](#) if you'd like further information. For assembly instructions please refer to: [Bed Assembly Instructions Barossa Daylesford Mansfield Daintree Hawthorn Kingston Apollo Airley Windsor and Trundles](#)

Hardwood Bed Base – Hawthorn – AUSTRALIAN MADE 100% Organic

This beautiful hardwood bed base created with Victorian Mountain Ash timber, has a 57 cm headboard height to push your pillows up and enjoy a book in bed for that little bit longer. Pictured here is a King Single Hawthorn Bed Base with 90 x 32 cm frame and the single [Montrose Trundle](#) sliding underneath, (which is also available to order). The legs are placed on the outside to allow for a trundle to go under smoothly.

*We recommend you DO NOT expose the bed head to direct sunlight or heat.

- Platform height to suit Montrose Trundle with futon is 50 cm.
- Platform height to suit Montrose Trundle with regular Organature Innerspring Mattress is 52 cm.
- Standard platform heights are 30 cm or 36 cm.

Only the King Single, Queen or King bases are suitable for the Single [Montrose Trundle](#) to fit under. To fit the [Montrose Trundle](#) underneath using OUR regular innerspring mattress together with bedding under the base, the platform height must be 52 cm.

OPTION: On special request we can make a *Low profile innerspring mattress for this purpose as together with bedding under this base, the platform height needs to be 42 cm. *The low profile mattress is made with the same quality strong springs, the same height, as those used for cot mattresses, but, with more Organic Cotton filling. Please [contact us](#) to find out more.

BED HEIGHTS: The Hawthorn Bed Base Comes In 2 Bed Heights. 30 cm and 36 cm. Also available as '[Daintree' Bed Base](#), which is the Hawthorn without the head-end. If you wish to discuss other height options please [Contact Us](#).

Hardwood Bed Base - Barossa - AUSTRALIAN MADE 100% Organic

Our Barossa Bed base is like the [Maldon](#) but without the Head or Foot-end. Made from 100% Victorian Mountain Ash Hardwood. Solid 140 x 32 mm timber frame with L shaped recessed legs to avoid stubbing toes. The legs are bolted to the inside of the frame providing a stronger construction without the leg protrusion. No toxic glue is used anywhere on the frame.

The Australian hardwood slat timber we are using at present are 65 x 19 mm, spacing is approx. 65 mm. This is an ideal combination to support a futon and provide proper spacing for the special Bonnell springs used in our mattresses. The slats sit level with the side frame. This is done so that the mattress gets maximum airing, essential with ANY mattress, and easier to make the bed as you don't have struggle with hands between frame and mattress. The slats come in three panels, to avoid movement and secure fit in the base. And with the King and Super King an additional centre slat is added for support.

The outer rims of the mattress also sits on the outer 32 mm thick base frame, thus covering the slats. Standard platform heights 26 cm and 36 cm, other height options available between 37 - 60 cm, and this incurs an extra charge. Please specify the height in cm when placing your order if choosing a custom height between 37 - 60cm.

CUSTOMIZATIONS: Also available as a [Daylesford](#) or with [Hawthorn](#) headboard option. If you wish to add the bed-head later you would have to screw it on with ordinary screws. When we supply the complete unit we supply special screws and have pre-fitted nuts in the frame end.

Suitable for innerspring or futon.

Hardwood Bed Base - Apollo -AUSTRALIAN MADE 100% Organic

Floating timber bed base with a solid timber frame. Frame for the 28 cm height is made with solid 140 x 32 mm timbers. The head end has legs (shown in the photo). Foot-end legs are hidden to give a "floating" appearance. Base of mattress sits level with frame.

This base is also available with [Daylesford](#) and [Hawthorn](#) headboard options.

Suitable for innerspring or futon.

ORGANIC FINISHES: Choose raw and sanded, or with natural plant and mineral based oil. We source our oils from Livos who have a range of other colours, you may choose to purchase raw and sanded and apply the oils yourself, here is a link to the Livos website: [Livos](#).

AVAILABLE BED SIZES:

SINGLE BED: Australian Bed Size to suit 910 x 1900 mm Innerspring Mattress or Futon

SINGLE LONG BED: Australian Bed Size to suit 910 x 2030 mm Innerspring Mattress or Futon

QUEEN BED: Australian Bed Size to suit 1510 x 2030 mm Innerspring Mattress or Futon

KING BED: Australian Bed Size to suit 1830 x 2030 mm Innerspring Mattress or Futon

SUPER KING: Australian Bed Size to suit 2030 x 2030 mm Innerspring Mattress or Futon (Special Size. Made To Order.)

ASSEMBLY: For assembly instructions please refer to: [Bed Assembly Instructions Barossa Daylesford Mansfield Daintree Hawthorn Kingston Apollo Airley Windsor and Trundles](#)

Hardwood Bed Base – Windsor – AUSTRALIAN MADE 100% Organic

This lovely timber bed base has a solid slatted timber 57 cm high ladder style head board and recessed legs to avoid stubbing toes. Solid 140 x 32 mm timber frame. Base of the mattress sits level with frame. The Windsor bed base is a mixture of two popular bed bases. The head board is from the [Hawthorn](#) and the base is the [Barossa](#).

BED HEIGHTS: Available in different heights (30 cm and 36 cm) and in various oil based finishes. Suitable for innerspring or futon.

AVAILABLE BED SIZES:

SINGLE BED: Australian Bed Size to suit 910 x 1900 mm Innerspring Mattress or Futon

SINGLE LONG BED: Australian Bed Size to suit 910 x 2030 mm Innerspring Mattress or Futon

KING SINGLE BED: Australian Bed Size to suit 1070 x 2030 mm Innerspring Mattress or Futon

DOUBLE BED: Australian Bed Size to suit 1370 x 1900 mm Innerspring Mattress or Futon

QUEEN BED: Australian Bed Size to suit 1510 x 2030 mm Innerspring Mattress or Futon

KING BED: Australian Bed Size to suit 1830 x 2030 mm Innerspring Mattress or Futon

SUPER KING: Australian Bed Size to suit 2030 x 2030 mm Innerspring Mattress or Futon (Special Size. Made To Order.)

ASSEMBLY: Our beds are not made for mattresses to sit inside a lip, so when constructing ensure the side frames of the bed are used with the small space facing up towards the ceiling. For assembly instructions please refer to: [Bed Assembly Instructions Barossa Daylesford Mansfield Daintree Hawthorn Kingston Apollo Airley Windsor and Trundles](#).

DELIVERY TIME: Please feel free to place your order, however as each item is individually handcrafted, production time on most timber products is approx. 4 weeks.

Hardwood Bed Base - Mansfield - AUSTRALIAN MADE 100% Organic

This Beautiful timber bed base has a solid timber head board 77 cm high, perfect to prop your pillows up. The platform has sits level with the double layered 140 x 32 mm solid timber frame giving it a unique style. Legs are recessed to avoid stubbing toes. Base of mattress level with frame provides easier bed making, no hands getting jammed between mattress and frame.

IMPORTANT: We suggest you do not expose the bed-head to direct sunlight or heat for long periods.

HEIGHTS: The bed is available in two different heights:

- Platform: 30 cms giving a 6cm clearance from the base of the bed to the floor.
- Platform: 40 cms giving a 16 cm clearance from the base of the bed to the floor.

PLEASE NOTE: Natural Timber is a hygroscopic material, in that it absorbs and expels water from its surrounding environment. This process is known as thermal expansion and can cause warping, swelling and potentially shrinkage, as a hardy natural substance. Generally trees have evolved to be resistant to this and can typically take temperature changes within their stride. Although all our timber is kiln dried, and therefore has gone through most of this process, it can still naturally occur. It is due to these natural occurrences, that we do not use any glue, including our non toxic glue, on these products to allow for the further contraction and expansion of the timber.

The timbers are not glued together in our [Daylesford](#) and [Mansfield](#) headboards, so that the timbers do not crack under the pressure of this natural movement. Small gaps may therefore appear between the timbers, as the timber contracts. This is unavoidable in Natural timber without chemical processes. Being a 100% natural timber, it will have knots, lines grains and irregularities. This is the nature of timber. Although we try to match timbers as closely as possible, we cannot guarantee these irregularities will not show up.

Timber Bed Side Tables

ABOUT THE FURNITURE: Our beautiful Hardwood BED SIDE TABLES are proudly Australian Made using Victorian Ash from managed plantations. Purchased from a local mill to reduce carbon footprint. With No Toxic chemicals, No MDF, No Chipboard, No Chemical Paint and No Toxic Glues used during any part of the manufacturing process.

IMPORTANT INFORMATION ABOUT TIMBER FURNITURE SOLD IN AUSTRALIA: Did you know that most conventional wooden furniture is made using toxic glues and finishes? Imported timber must be fumigated before it can enter the country. Almost all timber products sold in Australia ARE imported, the majority are made in China. One company we researched makes their products in Australia from imported timber, these timbers ARE fumigated. Some suppliers of timber products are claiming made with 'Australian timber', this may be true but they send the timber to China to produce the furniture more economically! What happens when it's returned back to Australia? Australian quarantine regulations requires fumigation of timber and timber products. Fumigation chemicals are harmful to health, and a possible cause of SIDS (sudden infant death syndrome) in babies. Other timber products are also made here with MDF, full of formaldehyde, another cause of SIDS? Glued and finished with petro chemical paint and stain, another cause of SIDS? — It's not worth the chance for anyone.

100% ORGANIC BEDROOM FURNITURE AUSTRALIA: Because of this, we found it necessary to manufacture our own AUSTRALIAN HARDWOOD TIMBER FURNITURE from local Victorian Mountain Ash. NO Toxic chemicals, NO MDF, NO Chipboard, NO Chemical Paint and NO Toxic Glues are used during any part of the manufacturing process. Brown Sawmills are members of Australian Forest Standard, SAI Global certified system and PEFC, assuring sustainability and keeping down carbon footprints. There is no fumigation used in the processing of any of our timber products. There are no harmful chemicals to out-gas in either the construction of our furniture or in the finish. All Organature® Bed Linen and Hardwood Furniture is toxin-free and Proudly MADE IN AUSTRALIA where we can guarantee the purity of the manufacturing process from start to finish ... We confidently call it 100% Organic.

Hardwood Timber Furniture

IMPORTANT INFORMATION ABOUT TIMBER FURNITURE SOLD IN AUSTRALIA: Did you know that most conventional wooden furniture is made using toxic glues and finishes? Imported timber must be fumigated before it can enter the country. Almost all timber furniture, cots, cradles, chests, bunks and beds sold in Australia ARE imported.

All Organature® Bed Linen, Beds, Bunks, Cots, Trundles and Hardwood Furniture is chemical-free, toxin-free, additive-free. NO Harmful chemicals, NO MDF, NO Chipboard, NO Chemical Paint and NO Toxic Glues are used during any part of the manufacturing process. Proudly MADE IN AUSTRALIA where we can guarantee the purity of the manufacturing process from start to finish ... so we can confidently call it 100% Organic.

The Organic Bathroom

ORGANIC BATHROOM AUSTRALIA: Our organic towels, bathrobes, bath mats, hooded baby towels, hand towels and face washers are made from 100% Certified Organic Cotton. These are all natural organic products. Our new coloured towelling range is Made in Turkey because manufacture of these items in Australia is not yet economically possible, but the quality is lovely. Your healthy bathroom begins here.

ABOUT THE ORGANIC FABRIC: DID YOU KNOW THIS? ... To be able to weave terry towels and other knitted fabrics, the cotton yarn has to be 'waxed'. With conventional towels this wax is removed with harsh chemical detergents. These are not permitted with organic certification; so organic towels are washed with soaping solution and are still a bit 'waxy' when they are new, but they soften beautifully with every wash. Naturally. Organically. Heath-fully.

HOW TO CARE FOR ORGANIC COTTON TOWELS AND ROBES: To increase the absorbency of your 100% Organic Cotton Terry Towels, the washing and drying temperature for 100% cotton items should not exceed 40 C. Towels require a few washes at 40 C to remove the wax and make them good dryers. To remove the wax quickly, the towels could be washed 60 C, but be aware that some shrinkage may occur.

[Sewing Room Organic Fabric & Filling](#)

ABOUT OUR ORGANIC FABRICS: Certified 100% Organic Cotton Filling and Fabric, available for sale by the metre. All of Organatures' exclusive cotton fabrics are produced from the finest yarn and especially popular with the home sewing enthusiast. These fabrics are also suitable for clothing for all the family, cushions, home decorating, bedding, bed linen, baby products and also curtains.

ABOUT THE CERTIFICATION: All our fabrics and filling are certified GOTS, (Global Organic Textile Standard). This means that all our Natural and Dyed fabrics are GOTS certified too. We do not sell anything else.

ABOUT OUR NATURAL FABRICS: All 'natural' GOTS Certified 100% Organic Fabrics are unbleached and un-dyed. ideal for those who are extra careful about what they put next to their skin. Natural, certified organic and unbleached is the ideal choice for people wanting to live as allergy-free and sensitivity-free as possible.

ABOUT THE DYES: The dyes used to colour the fabrics are low impact chemical dyes, permitted and certified safe to use under GOTS (Global Organic Textile Standards). 'Vegetable' and 'Herb' dyes are occasionally used but not currently able to be economically produced on a large scale. We're working towards improving that READ: [How Safe Are The Coloured Dyes Used In Organic Fabrics?](#)

ORGANIC COTTON IS BETTER: The difference with organic cotton textiles and conventional textiles is that certified organic cotton textiles are not treated with chemicals such as colour fastener, wrinkle free, non-iron and lately fragrances, all of which are chemicals that are potentially harmful to both the planet and humans. These treatments are not needed with certified organic textiles due to the fact that 100% cotton absorbs the dyes without further treatment with setting chemicals.

PURCHASE CONDITIONS: Please note that fabric is cut to order. As per standard policy, we cannot accept returns or issue refunds or credits. Fabric can take up to two weeks before cut due to the size of the rolls.

Organic Household Products

WE CARE ABOUT PROVIDING THE PUREST AND BEST QUALITY ORGANIC PRODUCTS: These days, the term “organic” is often used as marketing hype, encouraging people to buy products that might well be organic, but the question is, have they been interfered with on the way to being produced, processed, stored, displayed and shipped to their destination?

Some products are sprayed with chemicals or washed in optical brighteners to make them more visually appealing to consumers, others are wrapped in toxic plastic bags, even the ink used to print the labels is potentially harmful to people who are prone to chemical sensitivities, lethargy and allergies.

We know these things are important for people with even just a slightly lowered immune system so we refuse to package our products in plastic bags (even though that is permitted under most organic standards). Instead we use organic cotton bags or [true cellulose](#), not plastic which just looks like cellophane. This is biodegradable, compostible and a much safer packaging alternative, especially for food.

USEFUL THINGS FOR AROUND THE HOUSE: Cellophane bags, aprons, organic cotton tea towels, cleaning cloths, ironing board covers, books, air purifiers and more. These products have been specially chosen because of their health promoting benefits. We aim to provide items to help you live a healthier and happier life.
