To assemble your new Sophie change  
table:

Please find the 2 sets of legs

You will notice they have numbers on one side.

The larger rails with the drawer runner attached go  
up the top of the legs.

Match the numbers on the legs with the numbers on  
the rails. For example:- Number "1" on the leg  
matches up to Number "1" on the rail. Number "2" on  
the leg matches Number "2" on the rail and so on.

Using the 60mm Bolts (provided), bolt the rails to the  
legs.

DO NOT tighten the bolts until final assembly.

Once you have bolted all 6 rails on, you will need to  
put the top shelf in place.

NOTE: one shelf is different from the other two.

That one different shelf should go in the top position  
with the slightly different end going towards the back  
of the change table.

You will find a short rail that needs to be bolted  
between the 2 top rails using the 4 x 40mm Bolts  
(provided).

Now the frame is assembled, tighten the bolts -  
PLEASE DO NOT OVERTIGHTEN!

Put the remaining shelves in

Finally....put the drawer in and your assembly is  
complete!

Enjoy your change table, and may your  
little one be fresh, comfortable & happy!
